Superintendent Hoyt, J. G. Snodgrass, Eugene Good and myself visited Beaver Creek Reservoir Tuesday and found reservoir practically empty. Opened main valves and allowed remaining portion to escape. Beaver Creek is flowing a reasonably good stream, apparently sufficient to supply the city. The water now being used in the city mains is the natural flow of Beaver Creek and not the impounded water.

Expect report from Engineer Shibley within the next few days.

Reservoir is sufficiently dry to allow parties to walk over the bottom, so we will put crew to work removing rubbish and decayed matter in a few days.

"Central" Appreciates Your Kindness

There are three operators concerned in every telephone call—you, the party you are talking to and "central."

All three parties must co-operate if the best service is to be had.

The telephone operators are human, just as you are.

Being human, they appreciate kindness and courtesy, but resent unkindness and discourtesy just as any of us do.

Kindness begets kindness, courtesy creates courtesy and patience encourages patience.

If you wish to get the best out of your telephone, make it a point to be kind and courteous to the operators.
