SAMSON TRACTORS

SIEVE GRIP

SAMSON SIEVE-GRIPS IN A CLASS BY THEMSELVES.

Original ideas developed through experience and necessity are embodied in Samson Sieve-Grip Tractors. You will find features there not thought of by others.

Recently we have secured letters patent on the method of connecting the air breather of a gas engine crank case to our patented NODUST-MOISTO-RIZER. This will be another exclusive feature in Samson Sieve-Grip Tractors, or otherwise an infringement if used by others.

The close connection of our management, being direct in touch with the actual operation, wants and requirements proving to be necessary in the small size farm tractor, we attribute largely to the success of the Samson Sieve-Grip.

It is our aim to manufacture a one hundred per cent efficiency tractor, sold at a right price, and give service that secures satisfied customers.
