### Observations

As nearly as we can get at it the most of the discontent is due to the fact that the fellows who work hardest get the biggest pay.

Telling lies is a fault in a boy, an art in a lover, an accomplishment in a bachelor and second nature in a married man.

Money is a chiffon veil, through which a girl's pug nose becomes "retrouse," red hair is turned to "Titan" and embonpoint becomes merely "plumpness."

"Of course, you are eager for the triumph of right."

"Yes," replied Mr. Dustin Stax; "but it's hard, sometimes, to tell which the right side of the market really is."—Washington Star.
