LA GRANDE IS ON WRESTLING MAP

LA GRANDE IS ON
WRESTLING MAP

La Grande has gained considerable prominence as a wrestling town by having a first class wrestler establish himself here and participate in a num-

ber of the best matches ever witnessed in Oregon. As a wrestling town it is now recognized by some of the best talent in the West.

Eddie O'Connell well known here and at present wrestling instructor of the Multnomah Athletic club has written for an opportunity to exhibit himself and his skill against some worthy opponent in the near future.

Peter Buzukos, the Greek wrestler, an old-timer along the Coast, wired Jack O'Neill this week that he is now located in Portland and looking for

a match.

John Berg of Spokane is here working out with O'Neill and advising him in his preparation for the Santel match next month. Incidentally he is getting the benefit of O'Neill's good work in shaping himself for his match with Gunderson at Elgin, Tuesday night, October 16. The Berg-Gunderson match is to be a finish contest and will be a hummer.

Jack Kinney of San Francisco is in town, having heard that there was good opportunities for wrestlers here.

Some of the wrestling fans have the impression that because Ad Santel is the World's Champion in the 175-pound class that he is offering O'Neill a handicap match. Such is not the case. Their match is to be a finish contest, two falls out of three. Santel recognizes O'Neill as a worthy contender as the latter has demonstrated his ability as a top-notch by defeating several of the best men in this class the past year.

There is no question in the minds of the best wrestling critics who have had the pleasure of seeing O'Neill perform but what he will give a good account of himself even in the presence of a champion.

He is sparing no efforts to be in the very best condition possible when he faces Santel and his many admirers may rest assured that he will put up the battle of his life on this occasion.

An Easy Way To End Catarrh Forever

Simple Home Treatment Destroys Germs of This Dangerous Disease.

The air is always full of catarrh germs thrown off by one person and absorbed by another and when your system fails to throw off such germs they find permanent lodgement in the nose, throat and head and multiply rapidly. You must kill these germs before you can cure catarrh.

The germs of catarrh can be best destroyed by inhaling the pure medicated air of Hyomei (pronounced High-o-me). This splendid and pow-

erful combination of oil of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe its air into your nose, throat and lungs by means of a small hard rubber inhaler which the La Grande Pharmacy and other leading druggists here in

La Grande and vicinity supply with every treatment. This medicated air is certain death to the germs of Catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. As

Hyomei is pleasant to breathe and is always sold by druggists everywhere with a positive guarantee of successful results or money back, surely no Catarrhal sufferer should go long before trying this simple home remedy. Adv.

YOU DIDN'T BUY A LIBERTY BOND

By FRED L. BOALT, Editor of the Portland Daily News.

It is the Spring of 1918. An American transport is crossing the Atlantic.

There is an explosion, muffled by the water, and the ship, mortally hurt, lifts, lists and plunges beneath the waves.

Men are struggling in the water. They are American soldiers, and they are denied the chance to strike a single blow for democracy. They drown.

"Gott strafe Amerika!" says the U-boat commander.

Where were the destroyers? Why had the transport no convoy?

YOU DID NOT BUY A LIBERTY BOND!

The Sammies are in the trenches. Their sector is wedged in between the British and the French.

"Black Jack" Pershing, the go-getter, is getting ready for a drive.

There must be days of artillery activity before the Sammies "go over the top."

Artillery fire makes the enemy trenches untenable and destroys the morale of the enemy troops.

There is something wrong. The artillery fire is lacking in intensity. Perhaps "Black Jack" is running short of ammunition.

At the word the Sammies swarm over the top, and plunge across "No Man's Land."

The enemy is not demoralized. He sprays the Sammies with rifle and machine gun fire. He butchers them. The attack fails.

YOU DID NOT BUY A LIBERTY BOND!

They do wonderful things at the base hospital.

They take broken men and patch them up, and make them as good as new.

The trench is full of broken Sammies. They stand or lie in knee-deep mud.

Some are blind. Some have ghastly face wounds. Some have arms or legs torn off. The bodies of some have been ripped and mashed, and smashed.

And some are dead.

Even the doctors at the base hospital can do nothing for dead men.

The base hospital is far away. The broken Sammies must be got there. But there is a dearth of ambulances. There is a dearth of medicines. There is a dearth of stretchers. Damn the luck, there is a dearth of everything! The Sammies die.

A ship is lost, a battle is lost, a war is lost—aye, democracy is lost, and all because—
