Symbol of Identification.
One common symbol of service in both our army and navy has been accepted as distinctive by the French peasants. It is a little black and white paper tag that hangs by a piece of yellow string from the left hand breast pocket of the service shirt or the navy jacket. This identifies the bearer as possessor of a sack of a well known tobacco brand and has been interpreted as uniform equipment.

This photograph of Private T. H. Grant of First Illinois Infantry shows how the Army carries the "Makings"—the familiar tag hanging from breast pocket.
