## U. S. Government Urges

Retailers to curtail delivery expenses—Word has been sent forth from the National Council of Defense to retailers the country over asking they adopt modern business methods, and cut down every possible expense, laying particular stress on the fact that every store can save their customers from 5 to 10 per cent by eliminating deliveries alone. The fact we want to bring home to you Mr. Consumer is—that the J. C. Penney Co. never makes deliveries—that has been our policy from beginning of our career—16 years ago—AND AGAIN we do no credit. ONCE MORE—and we never hold special sales—goods first must be marked up before down. Merchandise arriving in our store is marked for quick turnovers—quick sales and small profits.

less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain popsin, but

strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels. Adv.

### The Dollar Spent at Home

It is the dollar spent at home that pays for our school buildings and the teachers that educate our boys and girls. The home spent dollar erects our buildings and paves our streets. Protect your local industries by purchasing their goods. Why is it that other cities buy goods from other countries when they cannot be sold in the community where they are manufactured?

Mrs. Rose Middleton, of Greenville, Ill., has had experience in the treatment of this disease. She says, "When my children were small my son had croup frequently.
