CONVICT DOES BIT

Escapes From Oregon Prison and Goes to Front—Asks Pardon.

PORTLAND, Ore., Nov. 13.—Wiping out his penitentiary record with a smear of German blood, C. H. Draucher, escaped convict from the Oregon state prison, will return to Oregon from the battlefields of France and claim a pardon from Oregon, he announced in a letter received by J. W. Monti, warden at the state penitentiary where Draucher escaped.

"I had booked at your hotel for from one to ten years," he wrote. "I left rather suddenly and went to Canada. I enlisted in the artillery and came overseas. Was in France seven and one half months and was named at Lens last June. I am in a convalescent hospital now.

"I don't flatter myself when I tell you I made a rather nice getaway. Guess you realize it. Well, I am a reformed man now and will expect a pardon from the state of Oregon when I return. I have done my bit and think I am entitled to a pardon. I have killed a great many Germans."

Draucher concluded his letter with the statement that he underwent worse things in France than in the Oregon prison.

MAZOLA

BUTTER, lard and suet have been used for years for deep frying, sautéing or shortening—because the housewife could find nothing better. Today the Food Administrator asks her to use vegetable oils.

And Mazola, the pure oil from corn holds first place among vegetable oils. It is the ideal medium for sautéing, deep frying, shortening and salad dressings from every standpoint.

Mazola reaches cooking heat long before it smokes—cooks food more quickly and at the same time more thoroughly. This does away with that soggy and greasiness so prevalent with the old cooking mediums.

And Mazola can be used over and over again because it does not transmit taste or odor from one food to another!

That is what makes it so wonderfully economical.

Get a can of Mazola from your grocer today. Sold in pint, quart, half-gallon and gallon tins—the large sizes give greatest economy. Also ask for the free Mazola Book of Recipes or write us direct.
