ENLIST YOUR LENS IN THE ARMY

People of the United States are asked to help the Signal Corps of the Army get lenses enough for cameras for the fleet of observation airplanes now being built. The need is immediate and of great importance; the camera lens is the eye of the Army.

German lenses can no longer be bought in the open market, England had to meet this same difficulty in the earlier stages of the war by purchasing the lenses of the required type from individual owners. England is now making lenses better than the German ones formerly imported, but no faster than needed for her own uses. The Bureau of Standards of the United States Department of Commerce is now perfecting a substitute for the German "crown barium" glass used for lenses and American manufacturers will later be able to meet the needs with special lenses of new and improved types now being designed for this work.

The present situation, however, is that with airplanes soon to be ready

for service, suitable lenses cannot be bought. Possessors of the required types are urged to do their bit by enlisting their lenses in the service of the Army. They are asked to immediately notify the Photographic Division of the Signal Corps, U. S. A., Mills Building Annex, Washington, D. C., of lenses of the following descriptions which they are willing to sell, stating the price asked:

Tessar Anastigmat Lenses made by Carl Zeiss, Jena, of a working aperture of F. 3.5 or F. 4.5, from 8 1/4 to 20 inch focal length.

Bausch & Lomb Zeiss Tessars, F. 4.5, from 8 1/4 to 20 inch focal length.

Voigtlander Hellar Anastigmat Lenses, F. 4.5, 8 1/4 to 24 inch focal length.

Practically all of the lenses of these types in America will be required, but the 8 1/4 inch lenses are most urgently needed.

8, 9, 12 and 14 inch condensers are wanted; also, a number of Bausch & Lomb Zeiss Protars VII A No. 13, preferably set in Volute shutters.

Little Ones and Old Ones. James Edwards, 208 Harriette St., Montgomery, Ala., writes: "I sleep all night and cough but little. I feel like a new man now from using Foley's Honey and Tar. My whole family is using it now—the little ones and the old ones. It has cured our coughs and broken our colds." Foley's Honey and Tar clears stopped air passages, removes phlegm, heals raw inflamed membranes, soothes sore chest, makes difficult breathing easy, and relieves those deep-seated, racking coughs. COMEDY AND THRILLS AT STAR THEATRE TODAY.

Today and tomorrow's program at the Star Theatre is made up of some mighty good subjects. For those who enjoy a good laugh—and who doesn't—Lonesome Luke will be there in another of his roaring comedies called "Luke Loses His Patients." It shows the tall comedian as a doctor of a Sanitarium and the troubles he has come thick and fast. This has been rated as one of his best, if not his best, comedy.

A wonderful drama called "The Burning Silence" is also on the bill and the press notices have given it a very good write-up. The ever-popular Helen Holmes will also be seen in another chapter of the Rail-

ARCADE

VAUDEVILLE AT ARCADE THEATRE TOMORROW.

Tomorrow will see the appearance of the Hippodrome Vaudeville Road Show No. 6 at the Arcade theatre for one day only. This week's bill is made up of some mighty clever acts and the overture by the Arcade orchestra and the Keystone comedy with Charles Murray and Louise Fazenda will make a well rounded bill.

Little Allright who is with this vaudeville show certainly lives up to his name as he does some very clever juggling and acrobatic acts that no other race of people have perfected outside of the Japanese, as all of their tricks are done in a finished and graceful manner and his act has always been a big hit wherever he appeared.

The Shorts are a talented lady and gentleman who will appear in an artistic singing and dancing offering. They have both very good singing voices and sing sensible songs with a clear articulation. Their dancing numbers are a feature of their act and as terpsichorean artists they have no equal.

Morrison and Clifton is a team made up of a talented young man and a very pleasing and prepossessing young lady who present a comedy singing and talking act which they call Echoes from the Old Sod. This act comes very highly recommended. The male member of this duo is a natural Irish comedian and all of his material is put together for laughing purposes only and his quaint and original way of putting his patter over has always met the audience in a roar of laughter.

The Les Legers are a man and woman who perform a series of novelty gymnastic feats that are quickly, daringly and gracefully executed. They do many and difficult feats in balancing both hand-to-hand and head-to-head. This act is a novelty and has always proved to be a sure winner.

FOOTBALL STAR IN GAME SINCE 1897

MINNEAPOLIS, Nov. 20.—Twenty years of football, and still going strong. That's Bob Marshall, negro, one-time star end of the University of Minnesota.

Marshall began his football career on the Central High School eleven here in 1897. He played with the varsity

in 1904-'05-'06. In his last year at the university, he booted a goal from field and defeated Chicago, 4 to 2.

Since leaving college he has been playing semi-professional football and is in the lineup of one of the local teams this fall. He is 35 years old.

"A Military Necessity"

—General Dodge.

1917

FROM its beginning, the Union Pacific has been "The National Railroad," a patriotic institution. Lincoln and other great men urged its construction for national protection and development.

The prophetic vision of those who founded this great railroad during a period of national stress is now apparent in these times of international conflict. Again the Union needs its Union Pacific.

The Union Pacific is doing its utmost to expedite the enormous war shipments from the Treasure States it serves. Grain, cattle, minerals, lumber, wool and oil are needed as never before.

For new equipment alone the Union Pacific is spending over \$16,000,000 to give American people and industries still better service.

This is aside from even greater sums necessary for double-tracking, additional yard and engine

facilities and other improvements designed to add to the traffic carrying capacity of the property.

Just now some of our ordered equipment is unobtainable for immediate delivery because our Allies must be served first—so we will win. The Union Pacific and The Union Pacific States must use available equipment to its greatest efficiency.

The 41,000 employees of the Union Pacific and the 11,000,000 people of the western wealth-producing states now have an international obligation to fulfill.

Were Lincoln to speak today in behalf of the Union Pacific, as he urged its building, he would insist on those high service standards for which we are striving.
