

Farm products are too valuable to feed to rats and other rodent

You have been urged to do your part in conserving the country's food supply. Two-dollar wheat and other high-priced grains are too precious to waste. Place

A. D. S. RAT PASTE

around barns and granaries and your premises will soon be rid of all "enemy" rodents.

It is safe to use and is preferable to most other rat poisons because it dries up the victim without leaving any odor.

Price, 25 Cents

Save the grain. It means that America and her allies will win.
