for this season—and for next season, too. Manufacturers' prices have been constantly going higher, until practically every style and weight of underwear is higher at wholesale than our present retail prices. And that is not all, for with raw wool around 75 cents per pound, and raw cotton close to 30 cents per pound, you can rest assured that prices for another season will not be lower but higher. Our underwear stocks, bought through the R. C. U. months before the recent advances, offer substantial savings.
