said Mrs. Roscoe Neal, under whose management the details were. "Likewise, the various committees who worked early and late to make the thing a success, are indeed to be complimented," she continued. "Some of the committees gave several entire days to the work and gave it ungrudgingly. This spirit is what made the whole thing so big a success."

There are a great number of pans and dishes left there the evening of the banquet, which should be called for Saturday if possible.

Mrs. Neal Good General
The titanic task of managing the whole affair was a big one, and Red Cross officials are greatly elated at the success with which Mrs. Roscoe Neal, general chairman, handled the whole affair. Her untiring efforts, coupled with generosity in plenty on the part of the public, is largely responsible for the big success.

GERMANS RE-WRITE MAIL OF ALSACE-LORRAINE SOLDIERS.

By HENRY WOOD
(United Press Staff Correspondent.)
WITH THE FRENCH ARMIES,
Nov. 1. (By Mail.)—Germany's domination of the inhabitants of Alsace-Lorraine has now become so uncertain that they are no longer allowed to receive letters from the male mem-

bers of the families serving on the various German fronts. This curious state of affairs has just been discovered by the finding of orders establishing the new system of government letter transmission for the two provinces.

Germany's precautions are presumably dictated by fear that the soldiers in her armies from Alsace to Lorraine, might communicate to their families military or other useful information, and that this in turn might be communicated by the inhabitants of the two provinces to the French across the border.

All letters from German soldiers of Alsace or Lorraine origin must now pass through a newly created office at Stuttgart. These government employes make extracts of the letters, and it is these extracts that the families of the soldiers in Alsace-Lorraine eventually receive. The entire system is self-explained in the following "extract" that has just come into the hands of the French military authorities:

sending into the occupied portions of Upper Alsace and Lorraine letters coming from soldiers in the field, I am communicating you below the analysis of a letter from your husband, Monsieur Alphonse A., whose address we are holding here:

"I hope you are always in good health as I am, but recently I have only heard from you rarely, although I write you every two weeks.

"Is the harvest good at home this year? Here with us we have had nothing like it for the past 30 years. It will give us plenty to eat for a long time to come. Potatoes and fruits are both in most unusual quantities. I am eating enormous quantities of both, but naturally not to the point where it makes me sick as do others here who verify eat too much.

"I hope that in your prayers you will not forget me, as I do not forget you, so that when we meet again, we can without fear look each other in the eyes to the depth of our souls."

"Alphonse"

Snow at Joseph.
