SIXTY PER CENT OF ALLIES' SHELLS MADE OF MINN. ORE

VIRGINIA, Minn., Jan. 10.—Six out of every ten shells hurled at the Germans during the coming year will be made from ore mined on the Mesabi ore range in northern Minnesota.

Mine operators today estimated the 1918 production of these mines at 45,360,760 tons, but 1,000,000 tons less than in the past year.

With the exception of a futile attempt by the L. W. W. to incite a strike the Minnesota mines have been free of all industrial unrest since the United States entered the war.

G. K. Howitt, horse buyer of Portland, is here on business.

Croup at Midnight: Well in Morning.

"A few nights ago one of my patients had a small child taken with croup about midnight," writes M. T. Davis, Bearsville, W. Va. "They came to my store and got a bottle of Foley's Honey and Tar. Before morning the child was entirely recovered. The father's name is C. C. Craven." Isn't it unwise to experiment with unknown cough medicines when you can get the genuine Foley's Honey and Tar? Beat for coughs, coids, croup and laryngitis. Sold everywhere.—Adv.

CITY MANAGER'S REPORT (Continued from Page 1.)

property owner whose premises have been inspected, together with a copy of the inspector's findings and recommendations. As soon as such notice has been given the Fire Chief will proceed to enforce instructions of the board.

The Chief of Police reports 15 arrests for the week, one state case, 8 disorderly conduct, 1 drunk, 2 traffic violations and 3 for allowing minors to frequent pool halls. Number convicted, 11. Amount of fines and forfeitures, \$59.00.

Recorder reports the following receipts, and warrants issued for the week ending January 5th:

Table with columns: RECEIPTS, WARRANTS ISSUED, RECEIPTS, DISBURSEMENTS. Includes items like 'From fines', 'On imp. interest fund', 'On library fund', etc.

LICENSES ISSUED

For day... For moving picture... The Treasurer reports receipts and disbursements for the week as follows:

Table with columns: RECEIPTS, DISBURSEMENTS. Includes items like 'From water rents', 'From Imp. Dist. Int.', 'From Imp. Dist. Inst.', etc.

Total Disbursements... Street and Water Superintendent reports a total expenditure for labor for the week of \$112.33 of which \$28.75 is charged to the water department and \$83.58 to the street department.

Regarding work to be done on G. avenue to cemetery, the Maunabo Cemetery Association has officially reported that they will bear one-third of the improvement expense, L. D. S. Cemetery Association will pay \$75.00. Other interested persons \$100.00. Will advertise for bids for hauling and distributing the gravel. Expect to have work started early next week.

Have received replies relative to Palmator and find that prices range from \$135.00 to \$269.00. Am waiting for further advice and as soon

as same reaches us, will lay matters before Commission.

Street Superintendent has dragged a number of streets and has used grader to open various ditches thereby securing proper drainage. Have run drain along North Side of Palmer avenue. The continued wet weather has caused many places in the sewer to settle and the Street Superintendent has filled the same with gravel. He has also raised a number of sidewalks and drained numerous low places on dirt streets.

Have secured team for the next three months for its feed. This will enable us to demonstrate whether or not it is to the city's advantage to own its own team.

Beaver Creek reservoir is now full of water. Caretaker Woods has removed flume which was put in to gather water below the intake and has stored it above the high water mark.

Have about 12 cords of wood, most of which is now in the basement, as a result of sawing up old lumber taken from crosswalks. I figure that the city has made about \$50.00 on the wood deal.

Continued rain has demonstrated that the repair work and painting the roof of the City building was satisfactorily done as no leaks have developed. Respectfully, F. B. CUREY, General Manager.

NOTICE FOR BIDS

The City of La Grande will receive bids for three hundred cubic yards, more or less, of gravel to be delivered on G. avenue. Said gravel to be delivered not later than February 1, 1918. Contractors to enter into a contract with the city for the delivery of same. Contractor to furnish and deliver said gravel as per instructions and supervision of the Superintendent of Streets of the City of La Grande. Specifications will be furnished upon application to the Street Superintendent. Bids will be opened in the office of City Manager at two o'clock, Tuesday, January 15, 1918. The City reserves the right to reject any and all bids. Dated this 13th day of January, 1918. L. M. HOYT, Street Superintendent, City of La Grande. 1-10-18.

Making Dollars Profitable

Dollars lightly spent and put out at random are costly.

Dollars carefully spent and expended systematically represent financial efficiency.

The check book method helps make dollars profitable—it discourages extravagance; it emphasizes the value of system in money matters.

At the same time it affords safety and convenience in the handling of funds.

NEWS AND GOSSIP OF THE WORLD OF SPORTS

FULTON IS THE "CLASS" OF WILLARD'S CHALLENGERS

By H. C. HAMILTON (United Press Staff Correspondent) NEW YORK, Jan. 10.—Fred P.

ton's greatest fault seems to lie in an unimpeachable ability to gum things up for himself just at the moment when things look rosiest.

A year ago Fulton stood out as the logical man to meet Jess Willard for the world's heavyweight championship, but he scaped his own track when he met Carl Morris in New York. Fulton gained a reputation of being a little yellow as a result of that 65% for he lost on what was declared to be a deliberate foul. Morris was warning by a roughhouse style.

Fulton got another crack at the champion when he met him, so the stadium of the New York bout was wiped away.

Then the lucky challenger again stood out as a probable opponent for Willard. But he summed it again when he met Bill Tate in Little Rock, for he lost again in the same manner. The only pressure open to Fulton now is to meet Tate again and either win or lose fairly. He accomplished a comeback at the expense of Morris, so it shouldn't be impossible for him to repeat against Tate.

As a matter of cold, unbiassed fact, Fulton is far the best of Willard's challengers and is the only one who has done well enough to deserve a championship match.

Mistake or a bad case of nerves is about ready to beat him out of it.

Gospel of Shiftlessness. A labor leader at a labor banquet described shiftlessness.

"Don't be shiftless," he said. "Don't join that great family of shiftless wage earners whose gospel seems to be: 'Monday, plenty; Tuesday, the same; little on Wednesday; nothing on Thursday; don't worry about Friday, for tomorrow you get your pay.'"

Annual Meeting. Notice is hereby given that the annual meeting of the stockholders of the Cove State Bank will be held at their banking house at Cove, Oregon, on Thursday, January 10, 1918, at the hour of two o'clock p. m. At this meeting a Board of Directors will be elected to serve for the year 1918, and until their successors are elected and qualified, and such other business will be transacted as may properly come before said meeting.

HUGH McCALLI, Cashier. 1-5-18

SAVE COAL

PRACTICE WAR-TIME EFFICIENCY

Don't follow the old, wasteful coal-burning methods. Make every shovel-full count.

The following simple rules will make ROCK SPRINGS COAL go farther. Read them—and, before you forget it, hang this up for future reference.

- 1. Keep the fire pot full. A thin fire lets in too much cold air, and most of the heat goes up the chimney. 2. Keep your fuel bed reasonably compact by using part fine coal. Cold air goes through a pile of big lumps too freely. 3. Use the fine coal particularly for banking over night, and in mild weather. 4. Rock Springs is one of the hottest coals mined. It lasts a long time, too, if kept under restraint. Restrain it—(a) By putting on the damper and shutting off part of the draft as soon as the fire gets well under way; (b) And by partially banking with fine coal. A steady, glowing fire (not a roasting fire) is the kind that gives the most heat and saves the most coal. 5. Keep the ashes well away from under the grate. 6. Don't shake the fire in mild weather. The little ash produced by Rock Springs Coal is invaluable for slowing down your fire. 7. Don't shake the fire in cold weather after sparks begin to fall into the ash pit. 8. Keep your smoke pipe damper checked off as much as possible at all times. Remember that Smoke and Dirt are always wasteful. Whenever possible buy ROCK SPRINGS (Cleanest Coal in the World) COAL.
