

# Conserve Your Meat Supply

-Smoke It The Modern Way-

The old method of smoking meat is expensive because the process used causes the meat to shrink very materially. The economical and modern method is to use

### OUR LIQUID SMOKE.

It is extracted from the smoke of hickory wood and it imparts a sweet flavor to meats.

Its use saves time, loss and money. The meat is preserved better, it is better protected against mold and insects, it is not shrunken in volume or weight, and there is no danger of loss from fire.

Patriotic economy through conservation demands its use.

## The Music Lesson

is never tedious when the instrument played is a good one. That's why the best music teachers always recommend our cellos, violins, guitars, mandolins, banjos, etc. They have a tone that charms even when the dry-est exercise is played on them. Think then how sweet a beautiful melody will sound on them.
