

YOUR UNCLE SAMUEL'S FIST

Uncle Sam's right arm reaches across the Atlantic now, and here's the fist on the end of it—a trenchful of Sammies waiting for the word to take a punch at Fritz. As for meeting the Hun's attack, this sample looks like the American trenches were a "stone wall." There's determination in every face and if you can detect any nervousness you have Sammy's own word for it that it's nervousness to "get at 'em."

During the Lenten Season we will carry fresh Columbia River Smelt and Fresh Kipped Salmon. And as usual a full line of canned and salted fish. Also canned Clams, Shrimp, Oysters, Crabs, Lobsters and Sardines of all kinds. Codfish, brick and flaked.

HARRIS GROCERY

NINT HINNING OF BIG WAR GAME ABOUT TO START

(Continued from Page One)

tional League Parks be might be thinking of that hot Indian Summer day a few seasons back when he won a world's series game with a four-ply blow and the home drunk. Perhaps there came to his ears a faint echo of those explosive cheers from thousands of throats as he rounded third and streaked for the plate—a baseball hero of future-greats to look up to.

"Say," he said, after a few moments, "I wish the United Press could shock the folks back home. I don't believe they appreciate the fact that it's about time the American soldiers were fighting—not in a quiet sector but where the shelling is hottest.

"When we go into the trenches they'll have to send us thousands of tons of food and clothing and shells. And I'll have to have a hot full of bullets all the time or I'll just be a wild boob for the Doches to shoot at.

"Maybe they're building a lot of ships back home and keeping it under their hats. We've got to have a lot of ships—that is granted. And we've crowded so much about

what we're going to do that it seems to me if we really had done something in the ship-building line we'd have said something about it.

"You tell the people this—That if they don't build ships and quit rag-chewing about it they'll be selling us out. I don't think the folks at home would sell us out."

That's a practical Sammie's view of the situation and a fairly accurate one, too.

Chamberlain's Tablets.

These tablets are intended especially for disorders of the stomach, liver and bowels. If you are troubled with heartburn, indigestion or constipation they will do you good.

WOMEN ARE NEEDED TO HELP IN WAR.

Women can be usefully employed in nursing the wounded, in making up the soldiers' kits, and a thousand other ways. Many American women are weak, pale or anemic from woman's ills. For young girls just entering womanhood, for women at the critical time, nursing mothers and every woman who is "run-down," tired or over-worked—Doctor Pierce's Favorite Prescription is a special, safe and certain help. It can now be had in tablet form. You can procure a trial package of the tablets by writing Doctor Pierce, Chief of Staff at Invalida's Hotel, Buffalo, N. Y., enclosing 10 cents. Write in full confidence if you desire free medical advice also.

ROSEMONT, OREGON.—"There is nothing so good as Doctor Pierce's Favorite Prescription for all diseases with which a woman is troubled. I took it for indigestion and it cured me. I also took it during my confinement and it was so well all the time; had no headache, no back-ache, no morning sickness, no sour stomach, no bloating."

Mrs. M. B. DODD, Moshier Street.

ASTORIA, OREGON.—"My blood was bad for a long time and I was all run-down, and severe headaches, was nervous and tired all the time. After trying different remedies without getting any better, I decided to try Dr. Pierce's Remedies. I took the Favorite Prescription and the Golden Medical Discovery according to directions and was restored to perfect health. I can conscientiously recommend them."

"My mother always uses Dr. Pierce's Remedies. She gave me the Favorite Prescription when I was coming into womanhood."—Mrs. C. C. MESSENGER, 2201 Toussaint Street.

SHERRY

SNOW SCENES ABOUND IN LOCKWOOD FILM

Beautiful snow scenes abound in Harold Lockwood's newest Metro wonderplay, "The Avenging Trail," a five-act drama of the lumber camps in the North woods, based on Henry Owen's novel, "Gaston Olaf," which comes to the Sherry theatre on Sunday and Monday.

The scenes were obtained in the White Mountains of New Hampshire where Mr. Lockwood, Director Francis Ford and over twenty members of the Metro company spent three weeks' time staging exteriors.

Most of the outdoor scenes were played with the ground covered with snow, from a foot to eighteen inches deep, and with snow flying before the camera. The tramp of the lumberjacks over the trails through the forests with the branches of the tall pines and fir-trees laden with snow, and the scenes of the lumberjacks cutting timber and transporting it on sleds to the railroad spur, are some of the snow views that will delight the eye of the lover of the beauties of nature.

"The Courage of the Commonplace," produced by Thomas A. Edison, Inc., and distributed by George Kleine System deserves in every way the term "Perfection Picture."

The story is one of intense interest, ably acted and well produced. Part of the scene is at Yale, the rest at a western mining camp. The central figure is the superintendent of the mine, a former Yale student who applies to his life the "Courage of the Commonplace." He handles the striking miners and wins their everlasting allegiance when he goes down the shaft of a burning mine to find and remain with the men imprisoned below. In the end the unexpected happens and he finds that the girl he has loved since his college days loves him.

Leslie Austin plays the part of Johnny McLean, the mine superintendent, and Mildred Havens is The Girl. The rest of the cast is excellent and "The Courage of the

Commonplace" will be shown at the Sherry theatre today only.

Two pals of the Vitaphone Western studio, in Hollywood, are the bear and the wonderful white collie recently bequeathed to Carol Holloway. The dog just arrived and he was cordially welcomed by the bear, which for several weeks has been working in the new serial, "Vengeance—and the Woman." As the dog also is cast in a prominent part in the serial, Director Duncan is glad the two get along so well together.

THE HOME OF THE MAN-EATER

At the Salvation Army Baracks at 7:30 tonight, Rev. H. L. Ford will repeat his popular entertainment, "The Home of the Man-Eater." Mrs. H. L. Ford will sing "The Holy City," illustrated by twelve pictures. Other illustrated songs will be used and the lecturer will take the audience to Honolulu, Fiji, Samoa, New Guinea, Tonga, New Zealand, Australia, Tasmania. Strange and interesting sights and stories of the queer and cannibal peoples will be told. A picture of the savage who said "White man tastes better than ripe bananas," will be shown. An evening of rare, pleasant and instructive nature. Come and help the Salvation Army.

SEATS ARE FREE BUT AN OFFERING WILL BE ASKED

About Constipation.

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.—Adv.

CITY BOYS BEST FITTED FOR ARMY

WASHINGTON, Feb. 12.—City bred boys? Here is something in your favor. The question is physically more sound than the boys reared in the city has been refuted.

An experiment conducted at the behest of Provost Marshal General Crowder developed the proof. The country boy, a report of the experiment shows, may be more muscular but he is not superior in the essential details necessary to his acceptance as a soldier.

For the purpose of the experiment, rural and urban districts with a total population of 215,000 boys were selected. The regular army examinations were given. The results show that of the country boys, 27.6 per cent would not have been physically fit for army duty while of the city boys, 24.47 per cent have been rejected.

LABOR NEEDED TO HELP BUILD OUR SHIPS

(Continued from Page One)

but because of the lack of ships. The reason for this is plain. The speeding up of the American factories piled in the Eastern seaports, and packed into every railway siding outside of the seaboard cities, thousands of loaded cars of materials for the war zone. The result was that even the coal required for the ships in harbor could not get through, and even the few ships which we now possess were held in harbor by empty bunkers and could not sail.

Until we have ships to clear the Atlantic ports of manufactured goods of which our Army in France and our Allies are in need, these enforced holidays and embargoes must recur, with the result that no factory in America can be assured of running full time and no workman can count on continuous employment.

If you can drive this home to your people; if this lesson, through constant repetition, can be thoroughly learned; there is no doubt that you will get your quota of the necessary men.

It is not mere numbers that count—it is the efficiency of the men enrolled.

It is so much to the interest of the manufacturer to send his best men to the shipyards as it is to the interest of the man himself to go.

If the use of my name will in any way help you in your work, you have the authority to use it, quoting from this statement, to the end that the people from your district may realize more and for all that on labor depends the construction of the needed ships, and as these ships depend not only the war itself, but the present industrial life of the nation.

Your respectfully,
 HOWARD K. HURLEY,
 Chairman of the Board.

KEEPING FIT—KEEPING FIT

is the subject of the third lecture given by Dr. C. A. Phillips to the boys at the Y. M. C. A. every Sunday afternoon. Dr. Phillips expects to clearly outline the method of procedure in keeping fit to matters on the life problems in a boy's life. This series of lectures is meeting with great approval from the boys and the testimonials already sent into the Association shows that it is one of the greatest steps ever undertaken by the local association to educate the young men in the problems of life. Parents are not only asked to send the young men but are urged to request them to be present at the remainder of the lectures. This series is so intrinsically valuable and given by a man who is recognized as one of the best informed men on these vital subjects in the Northwest. The meeting will start at 8 o'clock sharp and is for young men between the ages of 15 and 24 and a cordial invitation is extended to the fathers of the boys.

DEVELOPMENT—Women earning \$50 a month as car cleaners.

Portland will erect \$26,000 detention house for women.

State Highway Commission will order work only on main trunk lines until after the war.

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the threshing, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see

MAZOLA

Helps the housewife to save butter, lard, suet; improves fried foods and salad dressings.

FOOD Administrator Hoover says that 375,000 tons of animal fats can be saved yearly if one-third ounce less is used per capita per day—and he asks every American to do his share.

He says use vegetable oils in cooking.

And thousands of housewives today are congratulating themselves that they have at last found—in Mazola—a vegetable oil which is even better than the old cooking mediums.

Mazola is a pure product from American corn.

It browns food quickly, preventing that greasiness and sogginess which used to be so prevalent in fried or sautéed dishes.

And since Mazola does not carry taste or odor from one food to another it can be used over and over again—a great force for economy.

If you want an especially delicious mayonnaise or French dressing use Mazola. There is no need to give up salads because of the uncertain supply or high prices of olive oil.

Get Mazola from your grocer in pint, quart, half-gallon or gallon tins. The large sizes are the most economical. Also ask for the true Mazola Book of Recipes—or write us direct.

Your money refunded if Mazola does not give entire satisfaction.
