**ARCADE**

**VAUDEVILLE TOMORROW**  
Tomorrow at the Arcade is the regular vaudeville day and this week's bill is made up of a variety of acts that have made good all along the circuit.

The big act on this bill is the Wood's Musical Trio that is made up of two charming young ladies and their male partner. They play xylophones, cornets, violins and drums in a manner that has always brought forth the applause. The fast and furious work of Edith, the girl behind the drums, is worthy of special mention and must be seen to be appreciated.

Williams and Lee are a team that are bound to make you laugh. Mr. Williams who is one of the fat boys of the movies weighs over the two hundred mark while his partner, often called the vest pocket edition of Venus, weighs but little more than one hundred. They do songs and dances and pass new comedy back and forth. Flynn and Howard have a number which they call "A bit of Irish." This act is composed of comedy singing and talking with some dancing. They are clever exponents of the Celtic race and their wit and humor is of a wholesome nature and done in a manner that only the Irish can do. The feature of their act is their soft shoe dancing. Sadie De Coma is a charming lady

MARY PICKFORD AND THE PEOPLE WHO "SHOOT" HER PICTURES, TOGETHER WITH SCENES FROM PARAMOUNT AND ARTCRAFT PICTURES.

Directors, cameramen, location seekers and a host of others who are never seen on the screen but are responsible for the great advancement in motion pictures in the past five years are "the men behind the guns." The principals are the director and the men who "shoot" the scenes and the stills, not

to mention the young ladies who keep the records.  
In the case of Mary Pickford it is conceded on every hand that she has been "shot" in pictures more than any other star. From the very beginning she played in big pictures in which there are hun-

dreds of scenes taken before the director announces that he has enough to complete the story in accordance with the script.  
Marshall Neilan, who has been directing Mary's latest Artcraft pictures, has had wonderful success in bringing out her best latent qualities. In "Stella Maris," her latest Artcraft picture, this

was particularly significant. Walter Stradling avoids the motion picture machine that records her actions, while W. S. Flynn stands on the side lines and "shoots" the stills with his big graflex. Miss Lucita Squier keeps the records of all the thousands of scenes that are taken, from which the final assembling is done.

who offers a novelty rolling globe act. Her balancing and juggling while on the rolling globe is an artistic display of merit. This offering is presented in a most pretentious manner and has always been well received.  
Charles Murray, Slim Summer-ville and others of the Keystone funmakers will be seen in a two

real comedy called "His Precious Life," and the orchestra will help make a well rounded bill.

**SHERRY**  
"WHO GOES THERE?"  
Admirers of Harry Moray—and they are legion—will welcome this fine sherry artist in "Who Goes There?" in which he has the great opportunity to display his talents. The play is taken from Robt. W. Chambers' story of the same name and will hold the audience from start to finish. The producers, The Greater Vitagraph Co., assert that "Who Goes There?" ranks with the best productions of the year and it is well known that this company takes infinite pains to make everything bearing this name in a class by itself—at Sherry's today and tomorrow, on the same bill with the big serial, "Vengeance and the Woman."

**Mr. Grain Farmer:**

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.  
You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.  
A granary of this size can be moved anywhere and can be filled directly from the thresher, doing away with high priced labor handling and sewing sacks.  
The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.  
Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.  
**BUILD YOUR GRANARIES NOW**  
Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.  
Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.  
Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for our granary. For particulars as well as prices on Union County lumber for all farm purposes, see

VIOLET MERISEREAU TODAY

The call of the circus—the fascination and excitement of life under canvas—was strong in the little girl when she was left an orphan through the accidental death of her father. Years before her grandfather had turned his son out of doors because he had decided to marry a girl the old miser objected to, and became a showman. The little girl was born with the show, grew up to be a famous rider, and then the future became a black smudge when her father fell to his death. The grumpy old grandfather now came forward, demanded the little girl for adoption and as

his hair, and then came the moment when the little rider must decide between high society and life with the circus. The result of this custom makes a mighty interesting photoplay to be exhibited at the Star theatre today and tomorrow when Violet Merisereau comes to present "The Little Terror." Rex Ingram made the production and to secure the proper scenes out of the big circus was halted on its tour of the country while the existing episodes of circus life were photographed in genuine surroundings of the sawdust arena.  
Portland—Willamette Iron & Steel Co. has contracts for 155 boilers for ships.  
Teleto—Alfred sawmill has been leased and will be operated.  
Flord Williams, 210 pounds of fun at the Arcade tomorrow, 2-19-14

**For Burning Eczema**  
Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or \$1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying. —Adv.
