EDWARD EVERETT HALE'S
MASTERPIECE REVIVED

"Man Without a Country" Brings
Universal Appeal.

"The Man Without a Country" is founded upon Edward Everett Hale's story. "The Man Without a Country," written in 1863 and intended, as the author said, to be "a contribution, however humble, toward the formation of a just and true national sentiment of love to the Nation." The universal appeal of this classic is shown by the fact that the lesson intended in the story has been in use in other times, under other circumstances, than those which surrounded this country in 1863. When in 1888 Peru found herself hard pressed by Chile in the war between these nations the patriots of Peru translated this story into the Spanish language. At the outset of the war with Spain the publishers of the "Outlook" reprinted it, in their wish that the Nation should not shrink from the duties of a nation. Jewel Productions, Inc., will bring the timely feature into the Arcade theatre on Friday and Saturday. It was made by the Thanhouser Film Corporation. Florence La Badie and H. E. Herbert head the all-star cast which

includes George Marlo, Ernest Howard, Carey L. Hastings, Charles Durman and J. H. Gilmore.

S-T-A-R

COP ANXIOUS TO
APPEAR IN PICTURE

The entire traffic was blocked on a busy street in a big city for William Desmond in the Triangle play, "A Sudden Gentleman." And besides all this an innocent cop was awarded. It all happened on Sixth avenue and Broadway in Los Angeles. Director Heffron asked the crossing officer if he would hold up traffic while he, the Director, made a "shot" of Desmond being hit by a flivver, and the cop, seeing a chance to act in a picture, agreed. Then came the disappointment, for he found his post occupied by a strange officer in the garb of a Chicago patrolman, and to rub things in the money cop help up traffic while two shots instead of one were being taken. This picture will be shown at the Star theater on Thursday and Friday.

"The Fighting Grin" is a farce-comedy with snuffing Franklyn Farnum in the lead. Arcade tomorrow. 2-29-11.

AT ARCADE FRIDAY AND SATURDAY

Scene from "The Man Without a Country"

For Twenty-five Years

fence users the world over have proven out our oft repeated declaration that

Page Fence Is

- The Best Woven
- The Best Galvanized
- The Most Elastic
- The Strongest
- The Most Adaptable
- The Most Portable
- The Most Dependable
- and
- The Most Economic

Woven Wire Fence

ever offered in any market.

Only when one buys good quality at a right price can he boast of a **GOOD BARGAIN.**

We are eager always to lead out **PAGE FENCE** against the **WHOLE FIELD** for any test, stress, strain, use, misuse or abuse which can be suggested. The old **PAGE STORY** is not a "fairy tale."

LA GRANDE'S SEEK SCHOOL

(Continued from Page One)

for this institution. They believe, however, that this city can present reasons why such a school would prosper and serve the interests of the Eastern section of the state to excellent advantage if located here. And they know that it is not going to drop into their laps without letting these reasons be made known.

It would be hard to over-estimate the importance of this effort. There is not a school man of Oregon who does not regret the inadequate provision for training the teachers employed in the state's public schools. In every other particular, Oregon's schools rank high. In this they rank decidedly low in comparison with other states. The influence of this neglect strikes straight to the heart of the entire school system—the grade schools where the difference between the trained and the untrained teacher is of paramount importance. Prominent educators throughout the country have pointed out repeatedly that the money necessarily spent by communities on their grade schools would return much more in actual service to the taxpayer if the teachers employed in those schools were thoroughly trained so that the pupils passing through their hands could get the maximum of drilling, instruction and incentive to worth-while attainments.

With the adoption of the measure referred to Eastern Oregon will get such an institution. The city best adapted to its maintenance and support will get it. La Grande is going after it. So will other cities of this section. May the location best adapted to serving the schools of all Eastern Oregon win.

At the meeting yesterday following the La Grande Normal School committee was appointed; George T. Cochran, M. K. Hall, G. L. Larson, T. J. Scroggin, Wm. Miller, Fred J. Holmes and Fred B. Carrey.

UNsinkable SHIP MYSTHES PUBLIC; INVENTOR CONFIDENT

(Continued from Page One)

now no other ships are being equipped with the buoyancy boxes. Why is there opposition to the device, or at the least to a test of it in the dry-docks? If you can find an answer to that question I wish you would let me know right away.

The Virginia Engineering Company of Roanoke, Va., already has made experiments and has offered to fit out a ship with the boxes for less than 10 per cent of her cost. They say they can complete the job in a week. At the most a ship's cargo capacity would be reduced only 15 per cent.

Object to Flooding Steamer. But while work on the Lucia was under way every endeavor was made to have representatives of underwriters, ship owners, the navy and other departments see the work, but with very discouraging results.

The committee on ship protection as originally named was unanimously in favor of testing the Lucia by flooding her in drydock to determine not only her buoyancy but also her stability under all conditions of flooding. But the general

Monster Fishing Proposal.

KLAMATH FALLS, Or.—Engineer Harvey W. Hineks of the United States Reclamation Service is in Portland to promote the building of a fishway which will be one of the highest in the world, over the Copco dam on the Klamath river near here, and to take up other problems arising in connection with the Upper Klamath Lake storage project. The contemplated fishway will be 125 feet high.

Hineks will confer with Lester M. Rait, superintendent of irrigation and Vice President Alex Rosborough of the California-Oregon Power Company.

Notice to Appear. To appear for physical examination Friday, February 22, 1918:

- Order No. Name
- 10—Sam Kalkonen.
- 21—Harley Honor Richardson.
- 29—Frank Komeda.
- 36—John B. McAnich.

HOSPITAL UNIT MAY GET CLARK

(Continued from Page One)

Saturday inspection the inspecting officer told the boys that we had the neatest, most uniform and best equipped unit in camp, and congratulated us on the good showing we made.

I have been away for about two months, visiting the principal hospitals in France and spent two weeks at the British front. Mrs. Graham can tell you that I am a very poor letter writer at the best, and after being thrown in the midst of such a whirlpool of events you must be as lenient as possible on me for not expressing sooner the gratitude we all feel to you and all the folks at home, for the many things you have done for us. Since I arrived back with the Company on January 7 we have changed stations again and are now very comfortably located—the best quarters we have had since in this country. We are kept busy all day long in training and when night comes are willing to turn in at 7 or 8 o'clock.

We have made a good record in taking out War Risk Insurance and in making allotments. Every member has taken out \$10,000 insurance, and most of the boys have made allotments, either to some member of his family or to the banks. That speaks well of the conduct of any unit, and in that respect we are second to none.

Will be glad to hear from you or any one that is interested in the boys and will try and answer all questions you want to ask. As for myself I am enjoying the best of health and wish to be remembered to all the folks at home.

Sincerely yours,
J. P. GRAHAM, Maj. M. C.

SHERRY

Coming Friday and Saturday, the star delightful, Mabel Tallaferro, in the special Metro patriotic production de Luxe, "Draft 258."

For a program that will stir your blood, visit Sherrys today. Harry Morey in the patriotic drama, "Who Goes There?" and "Vengeance and the Woman," chapter No. 4, offers to all lovers of the blood red kind of pictures all that could be desired. Last day today.

Mothers of Oregon Prepare for Trouble!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands along the Pacific Coast would testify just as do the following:

Mrs. W. T. POCANUS, Cape McCready Camp. "I am certainly glad to recommend Dr. Pierce's Favorite Prescription. I think it is a God-send to mankind. During expectancy I was, as you say, with that terrible morning sickness. I was so bad that I just could not eat any thing. I commenced taking your Favorite Prescription and I was relieved at once—no more nausea, no headaches, no backache, and I got through so well."—Mrs. W. T. POCANUS, Cape McCready Camp.

Mrs. J. E. GIBSON. "I have suffered dreadfully during expectancy but the time I took Dr. Pierce's Favorite Prescription and I never missed a meal and had comparatively no suffering. I would surely recommend the Prescription to all prospective mothers and, also, to young girls coming into womanhood. A friend is taking this medicine now as I advised her to and she is improving fast. One would not know she was the same woman."—Mrs. J. E. GIBSON.

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$51.88 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the thresher, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a road team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see

A Hint to the Aged.

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days, they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases. —Adv.
