campaign was started in the Joseph schools and in a few hours Lawrence Prout reported that he had sold \$50 worth thereby claiming the prize of one W. S. S. which Miss Strachan offered to the first student to sell \$50 worth. Donald Beith, Kenneth Rudd, Vern Morelock and Cleo Morelock also report their \$50 worth sold.

The campaign will last for several weeks and all should help out in the work. A large percent of high school students have already purchased. Those who succeed in selling \$50 worth will be in the Rainbow Regiment of Oregon and their names will be recorded at the capital. Also their pictures will be sent to the Oregon Journal for publication. The boys who have already earned these privileges are to be congratulated as well as the other workers who are nearing the goal.

Measles have started in Joseph and several school students have al-

ready been taken with the disease. Much effort is being made to stem the tide of the epidemic.

### VICTORY ASSURED UNCLE SAM

"Victory" is Uncle Sam's. The famous slogan of the Government in its conservation program, "Food will win the war," may now be summed up in the one word "Victory," which is now the property of the United States Food Administration by reason of a formal assignment just received by Mr. Hoover.

Of all the names suggested in connection with the new nationwide campaign for the further conservation of wheat flour, being inaugurated this month by the baking industry, that of "Victory" was by far the most popular. Investigation developed, however, that "Victory" was a trade mark of the National Biscuit Company, duly registered in the United States Patent Office and in use since 1901, and therefore its property.

National Biscuit Company was appealed to and promptly responded by saying it would be a pleasure to transfer to the Food Administration all rights in this trade mark. The formal assignment has now been received and the thanks of the United States Food Administration extended to the Company for its patriotic contribution, as well as for the publicity assistance being rendered it in the Food Conservation campaign. —Adv. 2-21-18.

### BELGIAN SHARPSHOOTER'S PERISCOPE!

Use of the periscope isn't confined to submarines. This picture shows how Belgian sharpshooters spot the Boches without endangering themselves by sticking their head up from their observation pits. These "collectors," as they are called in the trenches, are constantly scanning No Man's Land through the periscopes, looking for "peaches" to add to their "collections."

### Worst Winter in Years.

Snow, wind and extreme cold caused more colds this winter than in past years. Foley's Honey and Tar proved its worth in thousands of homes. Men, women and children checked colds and coughs and prevented serious consequences from exposure. It clears the passages, heals raw irritated membranes, banishes irritation and healing throat. Mrs. Edward Strey, R. 37, Clinton, O., says: "I think Foley's Honey and Tar the only medicine for coughs and colds and recommend it highly." Sold everywhere.—Adv.
