DOINGS OF THE DUFFS

BY ALLMAN

Determination and Persistence

Success requires determination—the will to progress week by week and month by month.

The other factor is persistence—which insures continued progress.

Determination and persistence, in saving regularly a part of the income, are necessary for every individual who would know success and prosperity.

Our Savings facilities are at the service of every resident of this community.

Good lotions for chapped hands, face and lips, and all kinds of the very finest.

SHE'S CALLED "MOM" VALUABLE GIRL IN U. S. SERVICE

Copyright by Harris & Ewing
MISS SUE DORSEY.

"The most valuable woman in the government" is the way Miss Sue Dorsey, who has just been made assistant paymaster in the navy, is described by Rear Admiral Samuel McGowan, navy paymaster general. Miss Dorsey keeps track of the 1500 navy pay officers and assigns them to the various ships. She knows just how well each pay officer does his work. She is the only woman McGowan ever recommended for a commission.

HARVESTS ICE WITH PASSENGER CAR

New Job for Automobile Is Invented by Wellesley, Mass., Iceman.

Motor trucks haul ice through city streets in summer, but it has remained for Wellesley, Mass.—that center of culture and feminine learning—to discover how to harvest ice with a motor. And once more necessity is the parent of the idea.

Reuben Currier cuts ice from Morse's Pond in Wellesley. He was particularly anxious to get at the job early this winter, for the first ice was thick and clear and fine. Ordinarily, his work requires 25 horses and 85 men. But both horses and men were scarce this winter, so Currier's ingenuity devised spiked rims for the rear wheel of a Dodge Brothers touring car. After that the ice harvest proceeded merrily—and profitably—the Dodge Brothers car doing the work of four horses.

First the car was tried with the ice marker and then with the grooving plow, and it was found that a much larger expanse was covered than with horses. Then the car was turned to hauling the ice from the far side of the pond to the ice-house channel; and it easily towed cakes 100 feet long while men laboriously poled cakes only five feet long.

The equipment necessary to fit out the car for work on the ice was simple. Tires and rims were removed from the rear wheels and in their places, on each wheel, was applied a demountable rim fitted with sharpened studs or spikes. These gave excellent traction on the smooth ice. Ordinary skid chains were used on the front wheels to insure proper steering.

Worst Winter In Years.

Snow, wind and extreme cold caused more colds this winter than in past years. Foley's Honey and Tar proved its worth in thousands of homes. Men, women and children checked colds and coughs and prevented serious consequences from exposure. It clears the passages, heals raw inflamed membranes, banishes irritation and tickling throat. Mrs. Edward Strey, R. 37, Clinton, O., says: "I think Foley's Honey and Tar the only medicine for coughs and colds and recommend it highly." Sold everywhere.—Adv.

Don't forget to attend the great patriotic service at the Christian church on Sunday evening, February 24. Preparations have been made for good music and interesting and instructive addresses. The G. A. R., W. R. C., and Home Guard is especially invited.

Keeping Yourself Well

That Lingerin' Cold is a steady drain on your physical stamina. It impoverishes the blood, distresses the digestion, and exhausts your vigor. It affords a fertile field for serious infection and is likely to become chronic.

You Needn't Suffer from it if you will take Peruna and use prudence in avoiding exposure. Peruna clears up catarrhal conditions. Thousands have proved this to any fair person. Get a box of the tablets today—prove it yourself. Many prefer the liquid form. Both are good. At your drug-gists.

Better see me at once as I only have three cars left at the old price.

Geo. B. Richardson, Dealer
LA GRANDE, OREGON

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the threshing, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see

When a Want Ad Is Working For You

You're making sure progress in your hunt for a buyer for that used machinery, or furniture or office appliances. People are not afraid to buy needed things because they are "second hand." The important thing is that they are still good enough to give satisfactory service. If they are your ad, will do business for you.
