

A RARE STOCK OF SOAPS

A perfect soap is one in which the materials are absolutely pure and in which they are so combined as to cleanse perfectly without possibility of injury to the skin. Some makers have gained reputations for the purity and excellence of their products. It is goods of this character which we feature. Our stock is large. It embraces everything in the line of

BATH, SHAVING, NURSERY AND FANCY TOILET SOAPS.

If you haven't any special choice in soaps, you'll find one here that you will want to select for regular use.

SEND CRACK AIRMAN

Adjutant Soulier to Demonstrate Morane Plane.

French Aviator Selected by War Department Officials to Come Here as Instructor.

Paris.—Adjutant Soulier of the French army, who shot down seven German airplanes in the shortest space of time of any aviator, has been selected by the undersecretary of aviation to go to the United States to demonstrate the newest and fastest flying machine in the world—the Morane monoplane.

Robert Morane of the Morane-Saulter works, who has created this development of his "paranol" type, originally intended to send as demonstrator Sublieutenant Jean Navarre, who was killed with Guyonnet, each having 12 German machines to his credit, in the spring of 1916, when he was wounded, and who has since been declared insane, following his running down a number of policemen in his automobile last winter.

The French authorities have refused to permit Navarre to leave the country, on the ground that although he is generally regarded as rational now, he might exhibit further tendencies to insanity which might be embarrassing to the authorities in the United States because of his grade and decorations in the French army. Navarre has always been considered by experts as the aviator possessing the best technique in the service.

Soulier, who is only twenty years old, went to Flanders in May last with a crack French escadrille. He was flying the newest model two-gun S. P. A. D. and by the end of June, when he was wounded, he had destroyed seven enemy machines. The Morane which he will demonstrate has been tried out by Raoul Givens Luthery, the American "ace," who is highly pleased with its performance. It has shattered all speed and climbing records, but can only be driven by the most skilled pilots.

LEADS A FAMOUS REGIMENT

Young Ohio Officer Is in Command of Gas and Flame Contingent of United States.

Canton.—An Oldham, Ident. Col. E. J. Atkinson, thirty-four, formerly of this city, is in command of the famous gas and flame regiment of the United States. He recently was elevated from the rank of major and is one of the youngest men in the United States army to hold such a high commission. Atkinson is now stationed at Fort Meyer, Va.

Wignsworth, Union; Samuel Paterson, Union; William McKinley Paterson, Union; George M. Carlton, Enterprise; John N. Carroll, Union; Irving Price, Union; Judd

THREE LITTLE MAIDS FROM SCHOOL IN SPRING FROCKS

About this time the fashion almanacs say we must expect to see fascinating billows of pink, blue, yellow, and green gingham in the shop windows and smaller wavelets of the same in the sewing room at home where mother's devoted and skillful fingers are fashioning new school frocks. Young feminine persons require a considerable number of washable frocks to keep them fresh and neat for school.

The small person on the left has a Fashion Art dress of soft blue chambray with white linen collar and cuffs, a black silk tie, and a row of pearl buttons down the front—and in that most unusual spot—under the arms. Big sister's frock is of coarse linen in deep green, made with a plaited blouse and worn with a white mull or batiste guimpe and a narrow patent leather belt. The third frock has a delightfully new touch in that its plaited skirt seems to button right on to the yoke with eight pearl buttons standing in a row. It is of yellow linen with collar and bow of white cordant.

Order Now

Farm Machinery Is the Artillery of Agriculture.

In what condition will your field pieces be for the spring drive? One of the big factors before the farmer today and that is getting what you want at the time it is most needed. Don't put off ordering your machines or repairs. An order placed for what you need now will mean DOLLARS FOR YOU. Factories are not able to supply only about one-tenth of the demand made on them now, so what show do you figure you will stand getting a machine on an order placed late in the season? Prices are not coming down, even if the war SHOULD END. The demand will keep up prices for at least three or four years, so why wait on your staple lines of goods?
