

FEEDING THE COMPLEXION

A clear, rosy complexion cannot exist unless the skin is healthy and smooth. Oil of almonds has long been recognized as one of the most perfect agents for softening the skin and feeding the underlying tissues.

A. D. S. ALMOND CREAM

is essentially a skin food and tissue builder. It is absorbed by the pores, removes the impurities, quickens the circulation of the blood in the external tissues, rounds out the muscles and makes the skin fresh and fair. Keep a jar of this delightful cream on your dressing table.

RED CROSS News and Notes.

From "Private Post," Canadian: "Of the four and a half million of casualties which have occurred in three years of fighting only 2 1/2 per cent have died of wounds." "Why do the wounded not die?" "We do not die because we have such infinite faith and hope and trust." "We do not die because we are firmly convinced of the infallibility of the Red Cross." "If all the Red Cross workers who handle surgical dressings could realize even to half the extent, the importance, the vital importance of their work, there would be three women to each job where there is only one now."

"You may save the life of your own son, husband, brother or sweetheart by commencing to work for the Red Cross within the next hour."

To all Chapters, Northwestern Division: The following is a copy of a letter received today from the Bureau of Development, at National Headquarters:

"We have received cable advice from France that stock on hand of the following articles is insufficient to meet all their present needs:

Hot water bottle covers;
Table napkins;
Handkerchiefs;
Ice bag covers;
Comfort pillows;
Bed flaps;
Operating stockings;
Knitted wash cloths;

With the exception of handkerchiefs and table napkins, we will furnish small quantities of these to some of our other communications. The production of these articles now under way and the quantities in the Division and New York warehouses make it impossible for the Chapters to curtail materially or suspend entirely, until further notice, the production of the articles listed above. (Signed) S. M. GREER, Director Bureau of Development.

Approved: (Signed) H. D. Gibson, General Manager."

EARL KILPATRICK,
Director Bureau of Development.

The Red Cross has this week added a new and picturesque branch to its many activities in Italy, according to a cable from Milan received yesterday by C. D. Stinson, manager of the Northwestern Division, by sending two "rolling canteens" to the front. The object of these canteens, which are really kitchens on wheels, is to furnish hot food to soldiers in the first line trenches.

Two New York men, Lieutenant Gardner Pennington and Lieutenant Edward McKee have charge of these first units. A farewell reception was given to the departing officers in the presence of the American and Italian officials at the Red Cross Rest Home at Milan. Four additional rolling canteens will be sent out next week.

HIGH SCHOOL

(Continued from page three.)

Another great aid to the Red Cross are the girls of the domestic science department who are spending class hours in the making of dresses for French refugees. This work is of no little consequence and the girls certainly deserve credit. Several of the boys of the high school have also been doing their bit by making checker boards for the army Y. M. C. A. These have been very much in demand, both in America and in France. The amount of Thrift Stamps bought by high school students from February 1 to March 1 has been estimated at \$679.20.

The game with Baker Thursday evening was probably the last game that will be played this season and is agreed upon by all as a fine closing number. The men of the team, both basketball and foot ball, certainly deserve much credit. At the beginning of the season it appeared as if the absence of several of the boys who had enlisted in various branches of the army would seriously handicap the school in athletics. In spite of this, however, the school claims do not agree with his conclusions.

Don't ask: "What is the Food Administration doing?" but "What am I doing to feed the world?" The library has several new cook books. Study the books on the science of food. Don't let your children lose their health because you do not know how to feed them. You may have to learn to cook without many more of the foods you have been used to.

Library hours: 1:00 to 5:00, 7:00 to 9:00 week days; Sundays, 1:30 to 5:30, for reading only. Neighborhood Club story hour, Saturday, 2:00 o'clock, for children from first to fifth grades.

has made a wonderful showing and has succeeded in defeating almost every high school team in Oregon that they have played.

Izma Henderson, Emma Lyman, Mary Peacock, James Purcell and Mervel Andrews have sold \$50 and over of War Savings Stamps. This makes a report of 29 children of the Central school alone who have sold more than \$50 worth of stamps.

9 A. M.

And the day's work done with a Frantz Premier Electric Cleaner.

Appliances that lighten the labor of the home are helping to release the woman-power of the country for national service.

The Frantz Premier is yours for service.

discussed. It is generally agreed that his statements regarding the use and abuse of habit-forming drugs are founded on wide experience and observation. All physi-

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. A little zemo obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching, burning, etc. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The E. W. Ross Co., Cleveland, O.

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the thresher, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see

The George Palmer Lumber Co.
