ESTRAY NOTICE
On or about March 1st, 1918, there came to my place in Fruitdale, near La Grande, Oregon, one sorrel horse with white stripe in face, weight 900 pounds and perhaps 10 years old. Owner can get said animal by paying cost of feed and charges for this notice.
J. B. STODDARD.

A CLEAR COMPLEXION
Ruddy Cheeks—Sparkling Eyes—Most Women Can Have
Says Dr. Edwards, a Well-Known Ohio Physician
Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.
These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.
If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.
Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition, 10c and 25c per box. All druggists.

WHO SAID WOMEN WOULD NEVER ELECT WOMAN TO OFFICE?

MRS. RALPH SMITH

Women elected Mrs. Ralph Smith of Vancouver to the provincial parliament of British Columbia and gave her the distinction of being the first woman in the world who owes her political success to the women of her constituency. Where are the anti who used to say women would never elect a woman to office?

PAGE WOVEN WIRE FENCE PAGE STRENGTH

Strength is a vital essential of wire fence. The greater its strength the longer its life and the better service it gives. Page Fence fully demonstrates its vast superiority only under pressure of falling timber, drifting snow or ice, floods, cyclones, stock stampedes and roadside accidents which would totally demolish any fence not possessed of its unequalled elasticity and enormous strength.

COMPARATIVE TENSILE STRENGTH.

The "Scientific American" is authority for these figures. Black iron wire will show an ultimate tensile strength of about 25 tons to the square inch. Bright, hand-drawn wire a strength of 35 tons to the square inch. Bessemer steel wire will stand a strain of 40 tons. Open hearth steel wire, 60 tons to the square inch. High-carbon, basic open-hearth steel wire will stand 80 tons to the square inch.

Now! Whenever any fence man tells you that his Bessemer wire fence is equal in tensile strength to Page Wire of high-carbon, basic open-hearth steel, just show him the above from the "Scientific American."
