of the best that has been put on by the pupils of the High School for some time.

The operetta, "The Drum Major," to be given at the High School on March 22, is to be a French play of the period of the Revolution, and with most of the scenes laid in a small town near Paris. The stage will be decorated accordingly with French flags and many other things, which are sure to make the stage attractive. Costumes will be rented for the characters, and are to be of the best, with those of the soldiers of the French revolutionary period and those of the girls of the Empire period. The play will have the support of the High School orchestra of fourteen pieces, combined with the Haines' orchestra of five pieces. All music will be obtained from New York, and when played by these two orchestras is sure to be one of the big attractions of the evening.

The manual training department has been doing some interesting work this week in the making of play-houses. They are being made for the second grade of the Central School, and are very perfect models. The houses each consist of four rooms, and will be furnished and decorated by the children of the second grade. Some very good work is being done by the boys in the making of them.

It is hoped every one will come and see their friends in the operetta "The Drum Major," to be given by the High School March 22. The two choruses singing in unison are sure to reveal the finest and most up-to-date light opera company, and will charm any audience. Singing will also be done by the eight recruits and their sweethearts. This is sure to be a big event of the evening. People you cannot miss this. Remember the date, March 22.
