"The Largest and the Oldest Tailoring Establishment of the Kind in the World"

Just a Word About "THE HOUSE OF BORN"

Quality and Value Unequaled

Fit and Satisfaction Guaranteed

This great tailoring organization was founded upon the determination to give men the best possible clothes values—and to value the customer's satisfaction above the profit derived from his immediate order. There has been no deviation from this policy in the forty-two years since Mr. Born established the first nation-wide tailoring service.

With an immense modern building of twelve sun-flooded floors devoted to exclusive tailoring of men's clothing—with an organization unequalled in needle craftsmanship and efficiency—the House of Born offers you better woollens, finer workmanship and longer clothes service, today, than most houses offered for the same money before the war.

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the thresher, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see
