PORTLAND MARKETS

PORTLAND MARKET LETTER

Hogs and Sheep in Great Demand At Top Prices.

PORTLAND, March 21.—Cattle receipts for the week, up to date, 1909. Receipts are showing up at about the same rate as last month at this time. It looks, possibly, as if they would show a small gain for the month. Steers are showing very good finish and are bringing excellent prices. Best steers are going at \$11.80, which is 25c to 30c higher than the same steers would have brought a week ago. Quotations are: Good to choice steers \$11 to \$11.80; medium to good steers \$10 to \$11; common to medium steers \$8.50 to \$10; choice cows and heifers \$9 to \$10; common to good cows and heifers \$8 to \$10.50; canners \$4.25 to \$6.25; bulls \$5 to \$9; calves \$7.50 to \$12; stockers and feeders \$6.50 to \$9.50.

The receipts for the week, including today, 4600. The supply is very short and the demand insistent. Taking into consideration the difference in quality of hogs offered this week as against last week's offerings, there is a difference in price in favor of the present week of fully 25c. All kinds of hogs are bringing excellent prices. Quotations are: Prime lights \$17 to \$17.20; prime heavies \$16.75 to \$17; pigs \$14.75 to \$15.75; bulk \$16.90 to \$17.

Sheep receipts today, 2400. The balance of the week the receipts have been exceedingly light. Trading has been on a hand to mouth basis with prices at the very top. Quotations are: Western lambs \$15 to \$15.50; valley lambs \$14.50 to \$15; yearlings \$13 to \$13.50; wethers \$12.50 to \$13; ewes \$9 to \$12.

HOD OREGON GETS IT ALL AROUND.

(Continued from Page One)

ost reserve timber largely into use for shipbuilding and airplane manufacture. 'Nothin' doin'.

From the appropriations committee Oregon got a little "small change" for Crater Lake Park, its two fish hatcheries and its two lifesaving stations. Looks like this committee had declared a moratorium on Oregon payments.

No Coast Defense Considered

Coast defenses? There is where we do not shine. We still have one coast defense left, Fort Stevens, supplemented by two forts on the Washington shore of the Columbia. A single super-dreadnaught of the type of the four that Germany is about to "borrow" from Russia, could reduce all the coast defenses of the Gateway to the Columbia basin without at any time being in danger itself. I'm telling no secret, for this situation is as well known to our enemies as to ourselves.

River and harbor? Appropriations for this service, as well as for waterways in general, are handled by the commerce committee in the senate. How we have fared in that bill I have already pointed out in a former article. We got \$350,000 out of twenty billions. We should have two millions.

What are our members on the public lands committee doing? We certainly got a rotten deal on the Oregon and California land grant bill, and that's about all that's been doing in that committee of late, affecting Oregon. The committee room has the air of a cemetery; but I suppose the clerks draw their salaries as usual.

The irrigation question I dealt with in my last article. Our representatives stood pat on a pair of trunks, Montana walked off with over twelve million and Arizona seventeen. We got less than five million, though we put in over ten. The difference was

in the kind of representation Montana and Arizona had.

Chemawa School Is Slighted

Indian affairs? We haven't even been able to get appropriations for improvement and needed new buildings for the largest modern Indian school in the northwest, Chemawa. Our Indian affairs representation is "cutouts."

I will pass up the ways and means committee of the house, because our member thereon only took his appointment at the beginning of the present session. If the chance is offered, he should work and vote to remedy the iniquitous burden of taxation imposed on the north and west by the Kitchen bill.

I will speak of the naval affairs committee, however. The congressman who represents us on that committee is supposed to be a "live one." But I've not noticed that he got us any naval base appropriation for the mouth of the Columbia. That's the thing he should work on now, if he's working this year. We may seriously need that naval base if the scene of naval activities is transferred to the Pacific ocean on account of the Russian situation.

By the way, this congressman and one of his colleagues were offered a place on the river and harbor committee of the house, and both turned it down, though it is the most important committee, from Oregon's standpoint, in the list. Why did they do it? If there is any voice coming from the tombs, perhaps we shall have an answer later. But it looks to me that a very great opportunity to serve our state was thrown away by these gentlemen.
