Will Be Held at Home of Mrs. Moran Tomorrow Afternoon

The ladies of Old Town are urged to be present at the Home Economic Study Class meeting on Wednesday afternoon, March 27, at the home of Mrs. O. E. Moran, 308 Third street. If this war is to be waged successfully, not only must the nation's fight-

ing men be put into physical and mental trim, but the same process must be applied to its civil population. Especially important is the welfare of the children, for it is the rising generation that we must look to fill the gaps in our ranks caused by the sacrifices of war.

Come, and bring your neighbor. Recent bulletins on war cookery will be on hand for distribution.

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the threshing, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see

"WHO WAS THE OTHER MAN?"

Francis Ford and Mae Gaston appear in Five-Reel Butterfly Subject Which Deals With Activities of Spies.

(Review by Robert G. McElvay in Moving Picture World.)

Francis Ford plays a double role in this five-reel offering, appearing as James Walbert, an American seaman, a foreign spy. Both characters are introduced early in the story, when Schumann is about to leave Paris to come to this country. The instances of double exposure photography are carefully handled, though something of confusion exists in the observer's mind regarding the identity of the two individuals. Fortunately for the story this doubt is a helpful thing, and is partly intentional.

The events which follow the sailing of the supposed Schumann for America are quite entertaining. He finds a woman confederate on board named Wanda, and they begin paying marked attention to a young man named Herbert Cornell and his sweetheart, Marion Washburn. This latter couple have the entree to Washington society and the plotters make good use of their opportunity.

In the course of the story the principals are seen at a social func-

tion in Washington, where Wanda gives Herbert some drug, of which she believes, him of important government documents, when she turns over to the supposed Schumann. She is then seized with concern, for she had really fallen in love with Herbert, and kills herself. In the final reel, which contains more action than the others, the spy is discovered to be, not Schumann, but the American secret service fan.

This feature picture and a two-reel comedy will be shown at the Star today and tomorrow.

SHERRY'S

FORCED TO STEAL BY THREATS OF CONVICTION.

One of the big, gripping scenes in "The Menace," the Vitaphone Blue Ribbon Feature, which will be seen in the Sherry Theater today and tomorrow is where the supposed adopted son of wealthy parents is detected robbing the home of his fiancée's parents.

The youth has fallen under the influence of a convict who convinces him he is his own son and forces him into a life of crime under threat of exposing his real parentage.

This strong picture from the story of Rex Taylor is based on the experiment of a physician, and
