It is not solely a matter of good clothes. It also involves proper corseting. The use of good materials, clock spring boning and the very superior designs that are found in the MODART Front Laced Corset, gives the proper poise to the figure that induces a carriage that will show clothes to the best possible advantage. A badly poised or improperly corseted figure will never look well even in the best of clothes. A half hour in our Corset Department will prove to you by direct fitting that in a MODART Front Laced Corset, a superior garment is found. We know from our own experience that woman after woman has improved her appearance by the use of these corsets. They are comfortable, stylish and wear well.
