Human nature is so constructed, as to shift the responsibility upon the other fellow. We have been urging you to Trade at Home because in the final result you will be the benefiter in a good clean, live, prosperous community. If you will patronize the Local Merchant it will mean an additional customer, which means added buying power, and a cut on the expense account. Every added account that formerly bought from out of town means more strength added to our own selves.

Property fluctuates or rises on the demand. Your community prosperous, it invites from the outside, whereas a run-down, shiftless Community loses daily. Are you going to help lay the Corner Stone to the foundation of Home Co-operation? Are you an asset or a liability to this Community. Be a Booster—start today, by patronizing local interests.
