

GLASS DAY PROGRAM BY ELGIN SENIORS

**RED CROSS ENTERTAINMENT
MONDAY EVENING—J. P. MAXWELL HOME FROM TEXAS—MOVEMENTS OF LOCAL PEOPLE.**

Elgin, May 9. (Special)—The Red Cross concert for Monday the 13th is promising an excellent entertainment. Mr. and Mrs. Walter Ross, of Pendleton, and Prof. H. H. Hurley and Darrel Larson of Imbler, will assist Mrs. Stafford in special numbers.

Dr. E. O. Wilson returned Sunday from Pendleton where he attended the I. O. O. F. Convention. Charles Dudley, of Pendleton, visited in Elgin Sunday between trains.

J. P. Maxwell stopped a few days in Elgin this week after spending the winter in Texas. Mr. Maxwell was accompanied by his family. Miss Nell Milne and Claudene Graham, two seniors of the Elgin High School made a visit to La Grande Saturday.

Mr. and Mrs. C. T. Yentzer motored to La Grande Thursday. Mr. and Mrs. W. R. Underwood made a business trip to La Grande Saturday.

All arrangements for the Senior glass day program have been made, and an excellent program has been planned. The first part of the program will consist of readings and musical numbers, also the class history. Poems, Will and Prophecy will be read. One thesis, which was written in application for the diploma will be read. The second part of the evening's entertainment will be a farce: "The Piper's Pay," given by the Senior girls. The High School Glee Club will give a musical special between parts.

PICTURE SHOWS HOW NEWS PAPERS ARE MADE

How editors and reporters get out the big daily papers never has been more faithfully portrayed than in "The Princess of Park Row," a stirring story of robbery, intrigue, love and near-murder, whose scenes are laid in two continents. This Greater Vitagraph Blue Ribbon Feature, which is the attraction at Shey's Theatre today only, shows the city room of a newspaper plant that is the real thing, and it also shows the real reporter, who, "called down" by his city editor, makes good by rescuing a princess, saving the life of her father and uncovering a conspiracy to steal vast mining properties in the Balkan Province of Hellaria. Miss Mildred Manning and Wallace MacDonald are featured in this picture, the principal scenes of which are laid in a great American city.

ART EXHIBIT PLEASES ALL (Continued from Page One)

candle shade making. In the room presided over by Mr. Wilkerson we saw "art" applied in a practical manner. Here were real vegetable plants with hand painted "For Sale" posters drawing attention to them and we feel certain that they were well sold out before the exhibit was half over. Their loose leaf booklets containing picture studies and their water color drawings of the china pheasant were also deserving of mention. We left the Greenwood school and made our way to the Central school where we were greeted by the principal, Mr. Prince. Our first call was in Mrs. Stella Ingle's room and here we saw the circus parade and the third ring of the circus. We followed the parade, which ended with a wonderful wagon containing the snake charmer and her venomous reptiles, into the tent where the beautiful bareback rider was so gracefully poised on her steed. Next to Miss Deal's room and saw the closing feature of the circus. Here the clowns, the monkeys, the colored band and the liberty wagon carried us back to our own childhood days and with reluctance we left knowing that we had witnessed the last act of the clever circus that had been completely made by the children of the first grades. The second grades under Miss Mary Kirkwood and Miss Lela Bloom had also furnished doll houses and just as an idea of a complete home, on the door step of one house sat the guardian, a fierce looking bull pup. The third grade room is under the supervision of Miss Nell Mahaffey. Through paper cutting the winter sports were developed in poster form. We cannot pass this room without giving special mention to their booklet, "Food, Shelter and Clothing." In Miss Gladys Winter's room our attention was especially drawn to her booklets made so beautiful by free hand cutting designs, the raffia twine holders and water-color autumn landscapes. The fifth grades are under the able direction of Mrs. Susan B. Carpy and Miss Mollie Snyder. The principal features of these rooms were their drawings of birds and animals that had been

drawn from mounted specimens and then conventionalized into booklet covers. We now called in the sixth grade room and found Miss Hulda Anderson and Miss Lela Forster in charge. The cut-out landscapes were the subjects that drew our attention and their cardboard boxes with their neat little covers, all hand decorated. One of the prominent features in Miss Anderson's room was the service flag with a star for every child who had gone "over the top" in the W. S. S. sale. This room was the first room of the schools to go 100 per cent "over the top" and the instructor informed us that they only lack eight students in going over the second time, so it is now just a question of a few days until we shall hear this good news. We now adjourned to the rooms of Mrs. Ruth Jackson, Miss Matty Jones, and Prof. Prince, where Miss Jones has charge of the art department. Here the most important corner was the "Victory Hat Shop," showing hats of all kinds, descriptions and varieties, made by the girls from Japanese matting and raffia. These hats are very serviceable and chic. No doubt they will help solve the "high cost of living." Another good display was the ceremonial gowns of the camp fire girls with their symbol done in wood block printing. Forming a border around the main floor was conservation posters, which were original designs and disclosed any number of reasons why we should conserve. We also wish to give mention to the still life drawing in charcoal as another feature of merit.

Through every room we saw the specimens of penmanship, the wonderful border designs of conventional flowers, the paper cutting and water color work and feel that much credit is due to all of the teachers and especially to Miss Clark for the practical application of the children's art work.

JUST GOT OVER A COLD?

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what a La Grande man says:

Ed. L. Bussey says: "I had been subject to kidney trouble at times, especially when a cold settled in the small of my back. Dull pains annoyed me and my kidneys got badly out of order. About three years ago I began using Doan's Kidney Pills and from that time on, I have had something on which I could rely. Whenever bothered by my kidneys it has taken Doan's Kidney Pills only a short time to set me right." (Statement given November 20, 1912.)

On May 25, 1916 Mr. Bussey said: "I am ready to back up every word of my former statement, regarding my experience with Doan's Kidney Pills, for I know they have no equal. When my kidneys got out of fix, I take Doan's and they never fail to do good work."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bussey had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mr. Grain Farmer:

Are you prepared to handle your grain in bulk? Do not wait until Spring and Summer when you are buried with work and worried with labor shortage, but build your granaries now.

You can buy the lumber and roofing paper for a first-class 1000 bushel portable granary for \$54.58 and it will last for years. Sacks for the same amount of grain will cost you \$125.00 and this would be a dead loss against this year's crop.

A granary of this size can be moved anywhere and can be filled directly from the thresher, doing away with high priced labor handling and sewing sacks.

The boys in the trenches need the sacks for sand bags for the protection of their very lives and perhaps your boy is among them.

Spend your money in your own valley by buying lumber manufactured at home. When you buy sacks part of the money goes to India.

BUILD YOUR GRANARIES NOW

Be prepared by building them before the farming season opens up. Be sure to get good lumber, well seasoned, as low grade lumber will give you trouble in a few seasons. Don't use green lumber.

Save money—keep what you spend at home—prevent loss and damage from exposure to weather—leave the sacks for our boys in the trenches; help win the war by building granaries now.

Portable granaries of this type are universally used in other sections. One trip with a good team will haul the material for one granary. For particulars as well as prices on Union County lumber for all farm purposes, see
