Fighting in Europe!

SELF-PRESERVATION as well as patriotism demands that our farmers shall plentifully feed our fighters.

When Germany proclaimed the seas closed to American merchant vessels and entered upon her program of wholesale ocean tonnage destruction, she was aiming a blow directly at the American farmer.

For lack of proper marketing and shipping facilities Australia today has three crops unsold and millions of tons of grain spoiled or destroyed either by weather or rodents.

Upon our success in this war depends not only life and liberty but livelihood.
