YOUR HUNDRED MILLION DOLLARS

WAR FUND COMMITTEE TELLS HOW IT WAS SPENT.

No Part of It, Says John D. Ryan, Went for Any Expenses of the Organization.

John D. Ryan, vice chairman of the War Council, recently discussed the disbursement of the first \$100,000,000 American Red Cross fund and spoke of the necessity for further funds. He announced that the week set apart for the drive is May 20 to 27. "We have collected \$105,000,000," said Mr. Ryan. "We have allowed refunds to chapters—as you know, chapters are entitled to retain 25 per cent. of the collections covered by the chapter. They have not in all cases availed themselves of the 25 per cent., but we have allowed \$17,006,121 on this account. We have appropriated to date \$77,721,918 and we have available for appropriation on March 1 \$10,371,217, with the addition of \$3,500,000 we know to be perfectly good when called upon.

"The appropriations have been made to the different countries as follows: France, \$30,038,103; Belgium, \$2,086,131; Italy, \$3,588,826; Russia, \$1,243,845; Rumania, \$2,676,368; Serbia, \$875,180; Great Britain, \$1,885,700, including \$1,000,000 that was appropriated by the War Council to the British War Relief, and for other foreign relief work, \$3,576,300.

"For relief work for prisoners we have expended \$343,304, and this work is only beginning. These appropriations have been made to care for the prisoners that we feared might be taken. We also spent for equipment and expenses of Red Cross personnel sent abroad \$113,800; for army base hospitals in the United States, \$54,000; for navy base hospitals in the United States, \$32,000; for medical and hospital work in the United States, \$531,000; for sanitary service in camps in this country, \$403,000; for camp service in the United States, \$6,451,150, and miscellaneous in the United States, \$1,118,748. We have funds restricted as to use by the donors amounting to \$2,520,409, and we have as a working capital for the purchase of supplies for resale to chapters or for shipment to France of \$15,000,000. We have working cash advances for France and the United States of \$4,286,000.

"People say we use 60 cents to spend a dollar. The expenses of the Red Cross today are well within the amount of money provided by membership fees. No part of the \$105,000,000 that we got is spent for carrying on the work."

SOME CORSET FACTS

There are, of course, good corsets and bad corsets—A good corset molds you to its shape. You mold a poor corset to your shape. That is why your figure improves under the influence of an artistically designed and well made corset.

Why Called "Bloodhounds." Bloodhounds were first known as southhounds, owing to their ability to track the deer, wild boar or the wolf. When the wounded game broke away and was lost these good-nosed dogs were used in tracking the quarry by the blood trail, and hence they were finally called bloodhounds. Beyond Hope. "So you've quarreled with your fiancée?" "Yes, I fear it's all over." "Don't give up so easily. Call her on the telephone." "It's no use. She used to know who I was the moment I said 'Hello.' Now she positively refuses to recognize my voice."—Birmingham Age-Herald.

PRICES TALK

It is one thing to argue that we can sell more and better land for the money than can be obtained in any other locality on the American continent and another thing to make good on this claim. For this reason we are submitting herewith a few sample bargains of our wheat land in northwestern Montana and will not take time or space to argue their respective merits beyond the simple statement that the locality in which we operate holds all the nation's records for quality and quantity of yield per acre of wheat, oats, barley, rye, potatoes and hay; that our wheat commands a premium from all millers; that frosted grain in this locality has never been known; that our live stock winter on the open range and top the Chicago market in March and April in competition with the corn-fed steers from Iowa.

SAMPLE BARGAINS: 280 acres; 12 miles from good town on main line of Great Northern railway; 85 miles east of our Hingham office. Every foot of this land is tillable and 60 acres are under plow and in crop, though we would not include crop at price quoted. There is a fine well and a comfortable though inexpensive set of buildings suitable for all needs. Price \$15 an acre.

Wheat Land In Hill County 700 acres; 15 miles from good railway town; in district tributary to our Joplin and Lothair offices. 280 acres of this land is under plow and in crop, half of which goes to the purchaser. There is a good house, 20x20 ft. square, with an "L" 12x18, good bank barn 66 ft. long; granary, 18x10 well and 8 miles of fencing. Price \$33.50 an acre. Purchaser's share of crop may be expected to reduce cost of this land to about \$25 per acre.

Choice Wheat Ranch Near Lothair 900 acres; 3 miles from good town on main line of Great Northern railway; in Hill county, Montana; in district tributary to our Lothair office; 280 acres is in crop, of which purchaser receives one-half. This land is all level and tillable and has three good sets of buildings, also living water. This land is ideal for tractor plowing and there is no better wheat land in the world. Price \$37.50 an acre.

Other Tracts, Hundreds Of Them, Large or Small, Similarly Priced. We have several large tracts at ridiculously low prices. Call at office for complete price list and full list of Umatilla and Walla Walla County buyers which aggregated over one million dollars in 1917. This list of buyers includes some of the most successful and conservative farmers in the country.
