Norris, of Pendleton, Victor Hansen, a former La Grande boy writes that he is recovering nicely after an operation in one of the army hospitals, where was in training, to Dayton, Ohio and is now a member of the aerial squadron. The many friends of Mr. Hansen will be glad to hear of his recovery from illness.

Last evening the Busy Bee Auxiliary of the Red Cross of Cove Avenue held an interesting meeting at the Salvation Army Hall. A nice entertainment had been prepared and a number of articles of fancy work were auctioned off. Ice cream and cake were served and a neat sum added to the Red Cross fund. A great deal of credit for the success of the evening belongs to Ensign Pogue of the Salvation Army and to Mrs. E. Guttridge, prominent in the Busy Bee Auxiliary.

BIG SURPRISE TO MANY IN LA GRANDE

People are surprised at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE of sour stomach, gas or constipation and prevents appendicitis. The INSTANT, pleasant action of Adler-i-ka surprises both doctors and patients. It removes foul matter which poisoned your stomach for months.—C. D. Putman.—Adv.

She will be accompanied by her daughters, Miss Helen who is a student at Reed College in Portland and Miss Lucile who is a student at O. A. C. at Corvallis. Senator Pierce who accompanied Mrs. Pierce down to Portland will transact some business in the Willamette Valley before returning to his home.

First Colonial General Hospital. It was on February 7, 1751, that the first general hospital was chartered in the colonies—the Pennsylvania state hospital in Philadelphia. Joshua Crosby was the first president of the institution, and Benjamin Franklin, who had been prominent in urging the establishment of an institution for the care of the sick, was the first clerk. It was in this hospital in 1769 that Thomas Bond gave the first official instruction in America.

Stop Itching Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 85c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds. The E. W. Ross Co., Cleveland, O.

MONTANA

'The Land of Independence'

25,000 new families find homes in Montana every year. 1,000,000 acres of new sod broken each year. At the present rate of increase MONTANA within FIVE years will produce more wheat than any six states in the United States. Scores of farmers from Southeastern Washington and Eastern Oregon are buying farms there every week. We are taking on an average of six to a dozen people to inspect our lands weekly—most of whom buy. Write Ray W. Logan, Agent, La Grande, Oregon.

Montana Rainfall is Ample

1916 Average	24.5 inches
Official Average for 16 years	16.5 inches
SOME OF THE WET YEARS.	
1902	28. inches
1906	22.5 inches
1911	21.3 inches
1916	24.5 inches

The most significant feature of this rainfall, however, is that it comes during the summer months, while the grain is actually growing. The average for the month of May being 3 inches, June 3 inches, July 2 inches and August 2 inches. Thus, the wheat which is just appearing from the ground in May, is kept constantly soaked until harvest, which comes late in August. This differs from other states, and wheat countries, which apparently have as great or greater rainfall, but receive no rain in the summer months. Crops in such localities rarely receive any rain at all after it is ready to head out. Our Montana rainfall, likewise is an approximate duplicate of the above, which is the official figures for the Lethbridge district. The amazing crops of 1917, in the vicinity of Stirling, Raymond and New Dayton, where we have extensive holdings, were produced with less than 11 inches of rain, which was, with one exception, the lowest rainfall in 16 years.

Can You Do As Well In Your Home State?

Mr. Farmer: Read the following thoroughly authenticated official averages of wheat yields on farms in that portion of Southern Alberta, tributary to our offices at Stirling and just across the international boundary from our principal Montana holdings, then answer the question propounded in the above headlines.

Mr. Hall, of Milk River:	Flax 37 bus.	Mr. Hunt, of Commerce:	On Summerfallow 50 bus.
	Wheat 76 bus.		Disked in crop (2nd year) 35 bus.
	T. W. Patching of Raymond:		\$100.00 per acre crop in two years with one plowing.
	Averaged Wheat 65 bus.		C. H. Mahood of New Dayton, from 320 acres realized 11,660 bushels wheat.
	Otto Welger, of Raymond:		The Pilling Ranch, in the Cardston District, threshed over 800 acres of wheat yielding forty bushels an acre; average weight per bushel sixty-five pounds.
	Averaged Wheat 56 bus.		Yield of potatoes at Lethbridge Experimental Farm, 757 bushels per acre; Red Fife Wheat, 59 bushels per acre.
	C. Brunsdale of Burdett bought farm for \$3,500.00, threshed 8,160 bushels No. 1 wheat at \$1.56, which brought \$13,446.00, net gain of \$9,960.00 in one year.		
	Lars Johnson, of Burnett, 57 bushels per acre on 160 acres, grade No. 1.
