Value of a High Aim. A glorious aim reacts in vitalizing ministry upon the entire being. It is curative. A big holy aim is very hostile to the petty ailments of the mind. It is also very destructive of the mean diseases of the heart. And through a healthier mind and heart we give ourselves a chance of more exuberant physical health. Perhaps it is true, in a larger way than we usually think, that "He shall quicken your mortal bodies by his spirit that dwelleth in you."

While stone ships, such as are being made now for the government's use in the war, are considered quite a novelty, they really are not so new after all. Away back in 1849 a boat of concrete was launched by a Frenchman named Lambot. Since then there have been many experiments with this type of vessel and many forms of concrete boats have been floated successfully. The Dutch and the Italians have been using concrete barges for a long time.
