

RED CROSS DRUG STORE

The Kodak Store

Social and Personal

Mrs. Della Scott has gone to Portland for a short visit.

Mrs. E. Marquam and son, of Kamela, are at the Savoy.

Wallace Anderson, of Pleasant Valley, is at the Hotel Savoy.

C. D. Wood is over from Baker, and is registered at the Foley.

The Y. M. C. A. swimming tank is a very popular place these days.

Superintendent J. F. Corbett was out of town yesterday, on company business.

Frank Clark and Oscar Johnson will leave for Portland this evening to enlist in the army.

Mrs. Frank Baker, wife of Conductor Baker, returned to her home in Pendleton today.

George Neal, of Seattle, is visiting his niece, Mrs. W. H. Duckett, and other relatives in this vicinity.

Muriel, daughter of Mr. and Mrs. S. W. Andrew, went down to Palmer Junction today to visit with friends.

Miss Marie Shaw, who has been on a visit with her grandmother, Mrs. M. E. Palmer, returned today to her home in Union.

Mrs. James E. Hough and her granddaughter, Ola May, left this morning on a visit with relatives in The Dalles and Portland.

Harold Matson, who has been on a visit with relatives and friends in this vicinity the past few days, left this morning for his home in Kelso, Wash.

A letter received this morning from Mrs. J. Garfield King states that her husband is now in New York and he expects to sail for France within a short time.

Mr. and Mrs. Wm. Baker, of Summerville, arrived in La Grande this morning on their return from a visit with their two daughters in Fine Valley.

Mrs. Julius Sommer and daughter, Daphne, who have been on a visit with relatives in Union, Elgin and La Grande, left this morning for their home in Portland.

David May, who has been in La Grande on a visiting and business trip for the past few days, left this morning for Portland, where he is employed in a shipyard. Mr. May and his family have been residents of Portland the past two years.

Mrs. Arthur Broadway left last night for Chicago, where she will meet her son, Will, who has a short furlough and will be able to come that far. The son is a first class machinist on the battleship Oregon, which is lying in Boston harbor for a few days.

Mrs. Mary Eshbaugh, of Kansas, was an arrival in La Grande this morning on a visit to her brothers, George and James Gibson. This is the first meeting between the sister and her brothers after a separation of thirty-four years. Mrs. Eshbaugh will remain several weeks on her visit with the brothers in La Grande.

The sheriff of Ada county, Idaho, was a passenger on the east bound train this morning, and had in his custody a man with an Oregon boot on his leg. The man, who has been claiming a variety of names, is wanted at Boise on account of having overlooked the matter of registration last year. He was taken into custody at Spokane. The circumstance goes to show that it is pretty hard to get away.

John Weaver was a passenger this morning en route from Lewiston, Idaho, to Enterprise, where he goes to report as one of the Wallawalla county boys who are to leave the coming week. While a restaurant of Wallawa county he has been located at Lewiston, and his wife will remain with relatives in that locality during his absence in the service of the country. Mr. Weaver expressed himself as being anxious to be on the way to France and feels that he cannot get there any too soon.

Substitute for Platinum.
A gold palladium alloy which makes an acceptable substitute for the more expensive platinum iridium alloy used in chemists' test tubes has been developed by metallurgists in California.

Huckleberry Finn and Tom Sawyer, Arcade, Monday and Tuesday. 7-19-21

IT HAS TO CHANGE.

The old habit of letting subscriptions to a daily paper run must change, and henceforth the paper bill each month—which is very small—must be paid the same as water rent is paid, or telephone service or light service is paid. There will be no deviation from this rule and our collector will call on every home during the month. Lay aside 65 cents at the home so there will be no request for a "come back" call.

When you figure up your water and light bill set down 65 cents for the daily paper and you will all be happy. Some have been in the habit of paying at the end of the year. These subscribers are 18-karat so far as being good financially is concerned, but we must ask that payment either be made in advance or each month as we cannot carry the account for a year.

PROJECTED PLANT, AS IT NOW EXISTS

(Continued from Page One)

The New Willard Hotel at Washington and the Biltmore and Manhattan in New York City to use his evaporated vegetables, and the Wittenberg-King Company of Portland, and the Dayton Evaporating Company, of Dayton, Or., have been doing a great deal of hard pioneering work in introducing evaporated vegetables to the eastern trade.

Hot air, and more hot air, is what is today being offered the small, as well as the larger growers in the state of Oregon. It simply means that the very latest in scientific method of evaporation of vegetables and fruits is employed in this factory, and that by this newest method, both growers and consumers are saving many thousands of dollars in the course of a year's run, in weight of finished products alone, by the consumer, at least, and the grower, by delivering direct to the factory, saving freight charges by rail, and receiving full weight prices for his delivered produce in the green state.

What such a plant will do for La Grande, and Union and Baker counties, has already been accomplished for the counties of Wasco, Hood River, Marion, Polk and other counties in the Willamette valley.

CANNING CLUB MET YESTERDAY

(Continued from Page 1.)

way they can raise pigs now—and they were urged to start in business—will be to act as individuals, until after the close of the State Fair next fall, when they can register, and go into any branch of pig raising they desire to engage in.

Mr. O'Reilly first explained why it is the government is so very anxious to increase the production of pork, and that is it gives off more heat, after being preserved, than other meat, it keeps better in transportation, and it pays good money to any boy or girl who will help win the war in raising pigs.

During the course of his short talk, Mr. O'Reilly stated that our army in France, of about 450,000 soldiers, will consume 3,000,000 pounds of pork a month, and in addition the French and Belgians are absolutely dependent on the United States for their supply.

Our shipment of pork today are at the rate of 500 pounds per pig, to France alone.

Any wonder then that the fact that is appealing to the boys and girls all over the land to just raise one pig each, which taken in the aggregate will mean millions and millions more pounds of pork for us and our allies. If the United States should stop the pig business suddenly, within 30 days there would not be a pound in the whole country.

Mr. O'Reilly advised the boys to raise only thoroughbred pigs, as there is more money in them; to get pigs just after they have been weaned; feed them for seven months, and if the pig has been treated right, and he, in turn, treats his master right, he should tip the beam at the end of that time at about 250 pounds, leaving a handsome profit, and maybe, a prize at the state fair.

The Club Pledge.
The following pledge was administered by Miss Cowan to the boys and girls—for these boys have agreed in the meantime to join the canning class:

"I consecrate my head, my heart, my hands and my health, through food production and food conservation, to help win the world war for peace."

This little pledge or ceremony, while all stood, was accompanied by appropriate gestures, and it seemed as if all were in dead earnest in the matter of being little patriots, as partners of "Uncle Sam."

VICTORY

(Continued from Page 4.)

supplies of ammunition at the front and on each return journey were requisitioned to transfer the wounded to the base hospitals.

PINCER TACTICS EFFECTIVE.

PARIS, July 19.—(By United Press.)—The allies are now assaulting the German salient, which reaches the Marne from Soissons and a point west of Rheims, from both sides. While the Franco-American forces are driving against the Germans in this salient, the Italians are attacking the Huns on a 15-mile front east of Chateau Thierry and northward toward Rheims. The Franco-American drive was resumed at daybreak this morning, and new progress was made almost as soon as the infantry got under way.

Blow Up Ammunition Dumps.

That the Germans were preparing to evacuate Soissons was early evident, when it was ascertained that they were destroying their ammunition dumps in the vicinity of the city.

Franco-Italian forces today took two towns, two woods and 400 prisoners.

The newspapers here claim that the French alone have taken 10,000 prisoners.

THE TURN OF THE TIDE.

LONDON, July 19.—(By United Press.)—Opinion here is unanimous that the onward smash of the Franco-American forces marks the first stage in the turn of the tide now moving to engulf the Germans, whose morale is now on the down grade, while that of the allies is markedly in the ascendant. As the Germans lose the initiative, so the strength of the allies has become more marked in the various sectors of the big Marne salient, and this remarkable change has been most noticeable since the Americans began pouring their fighting men into the various sectors.

10,000 CAPTURED AT 2 O'CLOCK

PARIS, July 19.—(By United Press.)—The prisoners taken by the Franco-American armies totaled more than 10,000 at 2 o'clock this afternoon. The totals of guns of various calibers taken is also steadily rising.

GERMANS ON DEFENSIVE.

PARIS, July 19.—(By United Press.)—The allies have taken the initiative and the Germans are on the defensive everywhere, says an official statement issued this afternoon by the high command of the allies.

The communique says: "The Franco-American forces are exerting very great pressure on the enemy in his salient between Montdidier and Rheims. At Rheims, the most interesting development is likely to happen. South of the River Ourcq, on the American front we have, by occupying Courchamps and Priezzem, been able to envelop La Neuville."

"The number of prisoners and guns taken surpass our fondest hopes."

"Premier Clemenceau now watches the battle from a point near Soissons."

AMERICAN UNITS ANNOUNCED.

WASHINGTON, D.C., July 19.—(By United Press.)—The "Rainbow" and New England Divisions are the two complete American divisions which are now battling the Germans in the great Franco-American offensive. Chief of Staff March told the Military Affairs committee of the House today.

Units of eight American divisions were engaged early in the week in checking the German advance on the Marne.

Many other American forces have been brigaded with the French during this offensive.

Chief of Staff March said that near 1,200,000 Americans are now in France or en route.

MAY RETIRE ON AISNE.

LONDON, July 19.—(By United Press.)—Military experts here this afternoon predicted that the Franco-American offensive may force the Germans to retire along their entire Rheims front, on which the enemy has used twenty-three divisions for reinforcing his main armies. This represents a force of more than 275,000 men, which the Germans have thrown into this, the greatest battle of the year.

It is quite likely that Prince Rupprecht of Bavaria or the Crown Prince may immediately open up an offensive on the British front with the object of relieving the disaster at Rheims. The maximum advance of the Franco-American armies is now 8 miles.

BRITISH TAKE PRISONERS.

LONDON, July 19.—(By United Press.)—Field Marshal Haig reports that the British have been successful in raids at Bucquoy, and Loere, taking prisoners.

Hostile raids in the Vimers, Meunieux and Meincourt sectors have been repulsed.

WEATHER FORECAST.

PORTLAND, July 19.—Showers.

TROOPS WILL LAND.

Allied Advisory Council Accepts American Proposal.

TOKYO, July 19.—(By United Press.)—Newspapers say that the allied advisory council has accepted the American proposal for landing troops in Siberia. A declaration of war will not be necessary.

BALL PLAYERS MUST FIGHT

WASHINGTON, D.C., July 19.—(By United Press.)—Secretary of War Baker has ruled that baseball players are subject to the work or fight order.

BRITISH VESSELS LOST.

Steamer and Transport Sunk With No Loss of Life.

LONDON, July 19.—(By United Press.)—The British steamer Campania, of 13,000 tons, was torpedoed and sunk. The passengers and crew landed safely.

The transport Baragane, en route to Australia with returning unfit Australian troops was sunk by a U-boat. There were no casualties, states an official report.

The Voice.

Some expert announces that the human voice is produced by forty-four different muscles. It might be added that when those forty-four muscles are not co-ordinating as they should the resulting sound often produces violent agitation in at least forty-four different nerves in the party of the second part, if there happens to be such within hearing.—Providence Bulletin.

Paper First Used in Asia.

Paper as we know that article today, was brought from Asia to Europe by the Arabians. In China paper was first manufactured from an ancient material, from silk. When Samarcand was conquered by the Arabians they employed cotton in the place of silk in paper making.

Effective Turkoman Headgear.

The Turkomans owe much of their charm to their fantastic headgear. When they remove them and reveal the shaved heads and embroidered skull caps underneath they seem commonplace. Yet there are many of the older men whose majesty of bearing is not a matter of costume alone. Their red cotton gowns or khalsis give them a princely staidness which the trousered Russian with his shirt flopping necks.

Had Sized Up New Playmate.

Dorothy had been next door to play with a little new girl, who proved to be a strenuous playmate. Returning home, she crept wearily into her mother's lap, and, closing her eyes, said by way of explanation, "I bet Alice is a boy, and her mother just doesn't know it."
