

### Inability to Sleep Indicates a Nervous System

The cares and worries incident to the war have created an unusual demand for good nerve remedies.

Restful sleep is an absolute essential of good health. Loss of sleep will kill as surely as the lack of food.

In order to build up your nervous system and overcome conditions which prevent sleep, take—

### Malt Tonic

This tonic supplies just what is needed by the nerve cells. It brings refreshing sleep, stops the expenditure of needless energy and rebuilds the wasted system.

Price 15c, 6 for 25c.

## flap-jacks en classes

U. S. Food Administration. "Sides savin' fats on wheat, we got ter save sugar. De bes' way ter save sugar is fer use syrups en honey. A nice 1 1/2 pitcher full er 'lasses conveyed by a fleet er buckwheat cakes is one er de bes' ways to 'get crost' wid de sugar proplek, an it saves wheat flour, too."

### MAKES STEEL HEAL ITSELF

Remarkable Machine Designed and Constructed in French Workshop During the War.

One of the most remarkable machines ever built in operation at the great workshop in France, where the Royal Flying corps repairs its damaged airplanes. This machine, the only one of its kind, which was both conceived and constructed in that workshop, is described by Gustave Babin in L'Illustration as one that makes wounded steel heal itself in exactly the same way as wounded flesh heals.

It is almost automatic, is operated by electricity and uses galvanism as its principle. It needs only one or two men to watch it, they being guided by a chart, showing in many colors the piece of metal to be repaired, the exact repairs necessary, the composition of the galvanic bath, the current needed, the diameter of the wires that conduct it and the time of immersion. All this is worked out mathematically to the minutest fraction and the machine does the rest. It is used for restoring worn or broken parts of delicate motors, most of which are difficult to replace. When M. Babin saw it there were lying on the table beside it parts it had just repaired that would have cost \$8,000 and much time to replace. In the previous week it had turned out 300 pieces, all of great importance, for nothing less is confided to it.

### TO WAGE WAR ON PESTS.

Entomologists Will Discuss Methods of Control.

Entomologists from the states of Oregon, Washington, Idaho, Utah and British Columbia will meet at the Oregon Agricultural College on August 5 to 7 to discuss the insect pests of the Northwest and their control. Federal specialists engaged in field work in the Northwest will be in attendance.

Latest approved methods of control for various pests as worked out by different specialists will be discussed and a co-operative plan for rendering more valuable aid in war emergency entomological work will be formulated.

"The value to be derived from such a conference," says A. L. Lovett, entomologist at O. A. C., "cannot be overestimated. The variety of insect problems and the limited funds and man power available for carrying on this necessary work requires a close co-ordination of efforts and this is what we will obtain by this conference." The first annual meeting of Western Horticulturists will be held at the College, August 5 to 9. Representatives from all states west of the Rockies are expected to attend. G. I. Lewis, professor of horticulture at O. A. C. is temporary president. The organization will be perfected at the meeting.

### KANSAS MAN PUZZLED.

Had Ben Overestimating The Size Of The Hus.

KANSAS CITY, Mo., Aug. 5.—Sergeant Win. H. Smith of the local U. S. Marine recruiting station was examining Jesse Somerville, a husky Kansas farmer, for enlistment in the Marines. Somerville, it was found, had had eyesight and could not read letters an inch high at 20 feet. He could not understand why this should keep him out of the service.

"You're not to have good eyesight to pick off those Huns," he was told. "You don't mean to tell me," he said earnestly, "that those Huns are that small?"

Kerr-Gifford & Co., Incorporated. Office in New Foley Building, B. F. Osweley, agent.—Adv. 7-16-18

### OUTBURSTS OF EVERETT TRUE

TWICE WE HAVE PROMISED YOU STUFF THAT YOU SAID WAS "VERY IMPORTANT" AND WE WENT OUT OF OUR WAY TO HAVE IT READY, BUT YOU DIDN'T COME FOR IT TILL A COUPLE OF DAYS AFTER!

Shipment of Adding Machine Paper in at Newlin Book and Stationery Co. 8-21

### SUMMER COMPLAINT.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept on hand. Mrs. F. P. Scott, Scottsville, N.Y., states: "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

Job Printing, The Observer, Main 37

### Topless Sport Model Look Your Best and Be Comfortable in a 'Sa Camille'

FRONT LACE CORSET—the only corset with the patented VENTILE

Back and Front Shield Be fitted to the corset designed for your figure. There are LA CAMILLE MODELS for every figure. They are always fitted by a scientifically trained corsetier. This service goes with the corset—and such comfort.
