With the cutting down of the sugar ration by the government, and its call for the canning of fruits without the use of sugar...

Sweet Corn. Corn intended for drying should be gathered when in the 'milk stage'—when all the contents of a grain can be pressed out as a semiliquid mass...

When the corn is sufficiently cooked, dump the ears upon a table to drain and cool, then cut the grain from the cob with a strong, sharp knife...

When the corn is dried in the sun, it should be finished by pouring into breadpans, placing in the oven of the stove, and warming to 160 to 165 degrees...

Check ad placed within a larger muslin bag which is in turn tightly tied. Prior to storing, the corn may be freed of silks, glumes, and bits of husk...

Since corn is a product which is quite high both in sugar and in protein, it is quite subject to the action of bacteria if the drying process is allowed to stop while there is a considerable percentage of water present...

Ordinary white field corn, if gathered when in ideal roasting condition and treated by the method here described, makes a dry product which is of course much lower in sugar content than is sweet corn...

Wanted Two Lids. Carl was fond of biscuits, especially the upper crusts of them. One morning when his mother picked up a biscuit to prepare a sandwich for him...

A Puzzled Reporter. If I happen to marry a woman with whom I naturally agree, I will turn out a good husband; if not, I'll turn out a bad husband...

HOME DEHYDRATORS.

Instructions in G. A. C. Pamphlet of Practical Value.

CORVALLIS, Aug. 7.—"Evaporation of Fruits and Vegetables in the Home," is the title of Extension Bulletin No. 296, just off the press in which A. F. Darr, assistant professor of pomology...

The object in evaporation is to preserve the fruits and vegetables through removal of moisture and to do this with as little change from the fresh state as possible in taste, color, nutritive qualities, and general appearance...

The principle upon which the process of evaporation is based is that by removing enough of the moisture present in fruits and vegetables, the organisms which cause food to spoil cannot live and grow...
