### ARCADE

KITTY GORDON AND COMEDY TODAY AND TOMORROW.

"The Beloved Adventuress" is the title of the latest World-Picture Brady-Made and it will be shown at the Arcade theatre today and tomorrow, with Kitty Gordon in a highly dramatic role in this offering. She appears as Juliette La Monde, a woman of the stage, who is the favorite of many wealthy men and yet loves but one man and he is a married man. Juliette returns to her home when her mother is dying but is turned from the house by her stern and unforgiving father. Her mother dies and her father takes her younger sister, Francine, to Europe where she is brought up in a convent. When the father dies Francine comes to live with Juliette. All of Juliette's better nature—her maternal love—is awakened by the sight of innocent Francine. When the latter falls in with a fast set and seems started on the wrong road and when her badness is abetted by Morgan Grant, the man she loves and the man with whom she has lived for years, she sacrifices her love and everything to save Francine. Francine is saved, though it means Grant's death, and after Francine's happy marriage Juliette goes to France where she nobly expiates her sin. This drama is intense and well sustained. Miss Gordon's role is an emotional one and in it she does the most effective work of her career. She is given splendid support by an excellent company.

A Fox Sunshine comedy, "A Son of a Gun," completes the bill.

Comedian Jack Pickford in "His Majesty, Benker Bean" and "Pershing's Doughboys," showing actual government moving picture scenes from "Over There."

### SHERRY'S

**GIANT CALIFORNIA PINES FILMED**

California's world famous pines which tower above the sides and summit of Mount Wilson form the settings for many of the scenes in "Cavanaugh of the Forest Rangers," the Blue Ribbon Feature, which will be the attraction at the Sherry theatre, the last showing today.

Director William Wolfert has produced a masterpiece in this rugged romance of cattle rustling days in the far West. His company lived several weeks in cabins built especially for them near the base of the mountain and later the cabins were transported intact to the Hollywood lot where later scenes were filmed.

Nell Shipman and Alfred Whitman, remembered for their exceptional work in "The Wild Strain," a recent Blue Ribbon release, are again cast in the leads in this picture, supported by the following Vitaphone favorites: Otto Lederer, Laura Winston, R. Bradbury, Rex Brown, Joe Rickson, Hal Wilson and Mrs. Hattie Buskirk.

Also a Big V comedy entitled, "Spies and Spills."

A choice stock of the very best and purest candies that money will buy, you will always find at Silverthorn's. 8-9-14

**Inseparable Musical Instruments.**

In modern Spanish dances one finds the woman gracefully waving a tambourine, while her male partner agitates the bones, or "castanets." The two seem to go together. Indeed, it has been so for thousands of years. They were played together as an accompaniment of amorous, and particularly of bacchanalian, dances in ancient Carthage, in Athens long before the Christian era, and in Rome.

**Pottery the Oldest Art.**

Pottery is the oldest, the longest and most widely diffused of all human arts. Its history, if recorded, would be as old as the history of man; its recorded history begins with the building of the tower of Babel. The oldest pottery known is Egyptian, but every people, civilized or barbarian, has practiced the art in one or another form. All study in every department of art begins at a period not long after the Mesolithic deluge, but pottery is the earliest of all forms of art.

**The Difference.**

Science is concerned with the names, distances and magnitudes of the stars; and with problems touching the "intestinal parasites of the flea." Art, literature and religion are concerned only with mankind; with the elemental, the universal, the eternal; with the dream, the defeat, the romance of life. —Dallas Lore Sharp, in Atlantic.

**Add Life to Railroad Ties.**

Railroad ties last about eight years under normal conditions, when they have to be renewed, which costs a good deal of money and calls for a large force of labor, says Popular Science Monthly. It is estimated that treated ties which are first kiln-dried and then immersed in hot creosote until saturated, last twice as long. They are absolutely waterproof and impervious to rot.

**NOTICE.**

Blue Mountain Grange will have a dedication for their service flag at Grange hall Friday evening, August 16, at 8 o'clock. The public is cordially invited. 8-14-21

#### TO WHOM IT MAY CONCERN.

To whom it may concern, I will not be responsible for any indebtedness contracted by my wife, Maggie Young. ROBT. H. YOUNG. August 14, 1918. 8-14-18

des the regular army men drill in, even if they were a few hard knocks, bloody chins and eyes, when come happened to hit the right spot on the boy's anatomy. "We caught so many front we got awfully sick of them," said Gene last night when telling about the grand good time they all had, but he said that they had plenty of fresh eggs and bacon besides. Gene says that much credit is due to Dr. Higgins, Miss Okey, Mr. Crow and to Dr. Brownson, who drove them to their camping ground, and came for them when time to come home.

#### CALL FOR CITY WARRANTS.

Notice is hereby given that all warrants issued on the general fund of the City of La Grande, Oregon, and endorsed March 31, 1917, or prior thereto, are now called for payment and interest on said warrants ceases from this date, August 10, 1918. AGNES M. RUSK, Treasurer City of La Grande 8-10-18

### JOSEPH FAMILIES ON LONG TRIP

JOURNEY THROUGH STATE OF WASHINGTON IS ENJOYED BY JOSEPH FAMILY—OTHER NEWS OF JOSEPH AND THE LAKE.

JOSEPH, Or., Aug. 13.—(Special.)—Dr. Boyd, of the First Presbyterian church, of Portland, will lecture in Joseph Thursday of this week. The place has not yet been determined.

Dr. Holmes and family, of Walla Walla, who have been camping at the head of the lake, expect to leave soon for their home.

Mrs. E. L. Brownell, of Elgin, is in charge of the Joseph Drug store at present. Dr. Brownell is seventy-five years old and fought four years in the civil war. Despite his age, the doctor is active and healthy. He expects to go to the G. A. R. encampment in Portland on the 19th of this month, as will several of the Joseph members of the G. A. R.

Mrs. E. L. Coe, wife of former Superintendent of Joseph schools E. L. Coe, expects to visit old friends in Joseph some time in September.

President Mrs. F. H. Gaulke, of the Joseph Red Cross, says that workers are needed badly at the Red Cross rooms to finish the August quota for Joseph. All ladies of Joseph are invited to help.

Several Joseph young people enjoyed the dancing party at the Anderson cottage at the head of the lake on the evening of Tuesday, the 20th.

Fred Ravenscroft and family were camped at Wallowa Lake Park over Sunday.

Nearly all the men of the town who are not otherwise employed are out on the farms helping harvest the crops.

After two weeks pleasantly and profitably spent in motoring through Oregon and Southern Washington, G. Salladay and family and L. Knapper and wife arrived home last Thursday. According to little Helen Salladay, who recorded all events of the trip, the journey was started on Thursday, July 25. The party went from Joseph to Walla Walla, via the Toll Gate road, from Walla Walla to North Yakima and Ellensburg, where short stops were made, at Ellensburg the party visiting several days with Mrs. Knapper's brother, A. Perrish, and her parents, Mr. and Mrs. A. Haberman, and were joined at that place by Mrs. Knapper's niece, Miss Edna Perrish. Seattle was the next long stop. Camp

#### VICE ADMIRAL KEYS

Vice Admiral Sir Roger John Brownlow Keys, who planned the naval raids on Ostend and Zeebrugge.

### AMERICAN NAVY ELIMINATES WASTE

Slicing Bacon on Battleship

ACKIES in the American navy are (in fact) as the best fed body of men in the world. In the ship's galleys every effort is made to eliminate waste.

In the upper photo one of the cooks on the North Dakota is operating a meat slicer that cuts bacon with the least possible wastage.

Fat is fuel for fighters. Bacon is badly needed in the allied armies and navies. The allied needs in pork products are 150,000,000 pounds monthly, three times as much as before the war.

Another waste eliminator on the North Dakota is the potato peeler, shown in the lower photo. Nothing is lost except the actual potato skin. There is a sufficient quantity of po-

How They Peel Potatoes aboard Ship

tatoes in America for greater use in every home and for all needs of army and navy. Eat more potatoes, eat less wheat.

#### DAILY GERMAN LIES

The Northwestern States are hearing that "in Canada they use all the wheat and white bread they want, as there are no restrictions there on the use of wheat." This is one of the daily German lies that is being put out to hamper the Food Administration. The Canadian Food Board is enforcing in Canada the same measures of food control that are being enforced in this country. The Canadians have even gone further than we in licensing retail grocers, hotels, restaurants and eating places, and in prescribing the quality and amount of food that may be served at a restaurant meal.

The pro-German slanders against our troops in France have now reached Alaska. There, the people are being told that "American soldiers on leave from the trenches are permitted to contract 'morganatic marriages with French girls, which are automatically dissolved upon the soldier being called back to the front, so that on his next leave he is permitted to enter into another such contract with another girl." The War Department reports: "This is a thorough-going falsehood. A great many fantastic stories come to us each day for authoritative denial, but there is scarcely any so totally lacking in foundation as this one concerning 'morganatic marriages.'" The Red Cross and Y. M. C. A. agents returning from France are continually bearing witness to the good moral conditions among our troops.

Because of the scarcity of good nurses, Mrs. Albert Mount was called to take a case at the Enterprise hospital last week. Mrs. Mount is an experienced nurse.

Miss Stella Thomson returned home from South Carolina last Thursday. City Marshal Patten is busily engaged in fixing the water mains.

At a new established Y. M. C. A. motor school in London 150 discharged soldiers have been trained. Ninety per cent found employment as drivers.

Caring For Interned. The British Y. M. C. A. is serving the interned in Holland.

When you want prompt attention and good work on developing and finishing of your Kodak films it will be worth your while to patronize Silverthorn's. They always have in stock a good line of Kodaks, and all kinds of Kodak supplies. 8-9-11

### No Drugs in Stanolax

Experts agree that one of the chief dangers of self treatment for Constipation lies in habit-forming cathartics.

Stanolax is distinctly different—it is a natural lubricant, tasteless, colorless, odorless. It is neither digested nor absorbed by the system.

Stanolax lubricates the walls of the intestines and acts as a solvent of toxic poisons. It soothes as it enemas. It does not produce the slightest physical strain nor abnormal activity.

Old-time drug remedies can now be put aside. By using the gentle but certain Stanolax one can gain relief from Constipation and keep relieved. One bottle is convincing. Your druggist has it—or will get it.

Manufactured Only by Standard Oil Company (Indiana) Chicago, U. S. A.
