AGED PASTOR IS STILL ACTIVE

CAMAS, WASHINGTON DIVINE HAS A UNIQUE RECORD.

The Rev. Mark Noble of Camas, Washington, is visiting with his daughter, Mrs. C. E. Happersett, residing at 1301 O street.

He is pastor of the First Baptist church of that thriving little city. It has been often said that after a minister reaches a certain age that his usefulness as pastor in practically ended and that he must retire in favor of a younger man who can more readily respond to the demand of his church and the community in which he lives. But it is not so with Mr. Noble.

He is especially popular with the young people, and before the war conditions came on, his church had the largest young people society in the city.

He has reached the ripe old age of eighty three years. As an old time friend of Dr. Freeze of the First Methodist church he has been requested to preach in his pulpit next Sunday night.

NO SEA BATHING FOR INTERNED PRIVATE

LONDON, Aug. 16.—(United Press)—Private George Flood, an actor well known in America and England, at present interned in Holland, writes to a friend bemoaning the fact that only commissioned officers are allowed to enjoy the sea bathing at The Hague.

He was captured in the fall of 1915, and since then has bitterly regretted the fact that he had not previously acquired a stripe or two—the only ticket which admits to the briny.

"OVER THE TOP"

Judge J. W. Knowles, who went "gunning" early yesterday morning—not for law breakers, as he has plenty of them at home to attend to—but for the large, fat and juicy grouse—returned last evening, having done all the damage he could, while out in the stubblefields, by "bagging the limit"—five.

"And that is all any good law abiding American citizen can do," he said this morning, in recounting his day's adventure in the fields.

G. A. R. TRAIN COMING.

"Jack" O'Neill, the ubiquitous, always smiling "Jack," arrived in La Grande on the morning train, and will remain in the city for two or three days. He says that general travel is slightly on the increase, and that two special G. A. R. excursion trains from the east will pass through La Grande, on their way with delegates to the G. A. R. THESE ARE FINE FOLK TO HAVE WITH US

By Lowell Mellett, (United Press Staff Correspondent.) WITH THE AMERICAN ARMY IN FRANCE, Aug. 2.—(By Mail.)—The colonel of this particular regiment was a sociable sort of person—not meaning to say the colonels of the other regiments are not—and introduced such of the under-officers as happened to be with him.

"This is Lieut. Lee," he said of one. The lieutenant was a well built, large framed young man with a broad pleasant face and a quiet, courteous manner. He allowed the others to do most of the talking, but was not in the least tongue-tied when drawn into the conversation.

"Nice sort of fellow, Lieut. Lee," I remarked later.

"That's Robert E. Lee," was the response.

"Any particular Robert E. Lee?"

"Rather. He's the grandson of THE Robert E. Lee."

RED CROSS KNITTING.

To all Chapter chairmen: Some of this morning's papers carry a dispatch from Washington, D. C., stating that Red Cross knitting is being held up somewhat pending a survey of the wool situation with reference to government needs. As most chapters in this division have already received the full amount of yarn for their present knitting allotments, the division office will expect the completion of the allotment as given. The division warehouse, acting under instructions from national headquarters, will not sell any more yarn until further notice, but will doubtless be authorized to release yarn to chapters before the present knitting allotments are completed.

Red Cross knitting is needed and the needs of the Red Cross will be taken care of by the War Industries Board next to the needs of the government itself. Sincerely yours, EARL KILPATRICK, Director of Development. Seattle, Wash., Aug. 13, 1918.

KAISER ADVISES HUNS TO EMULATE FRENCH

PARIS, Aug. 16.—Placards have been posted throughout Germany, calling upon the people to follow the example of France, which continues to fight proudly on after bleeding for four years on the verge of defeat, according to a dispatch received here from Geneva.

The Austro-German emperors, the dispatch continues, have proclaimed that the peoples war is continuing because of the refusal of the allies to accept the peace terms offered by the kaiser.

HEAVY CREAM SHIPMENTS

EXPRESS AGENT SAYS THE HIGH MARK HAS BEEN REACHED.

Indicates Herds Being Increased Instead of Diminished As Previously Indicated.

On the late train last night, there was loaded out for Walla Walla and Seattle about seven truck loads of cream cans, 25 on a truck, or about 175 ten-gallon cans of cream, or, in round numbers numbers, 1750 gallons.

Wednesday night a duplicate shipment was made, practically to the same points, so it would seem, after all, the dairy farmers up the branch and along the main line of the O-W. R. & N. between La Grande and Baker, have decided to increase their shipments of milk, or cream, and not diminish the herds of cattle, as it had seemed to those who had been investigating the matter.

It was stated by men who called at different dairy farms in this and adjoining counties, that on account of the present high price of feed, many dairymen were drying up their cows and selling them to the butchers.

It is surely more encouraging to the government that this is not going to be the case in the near future, as many millions of cans of condensed milk must go across the Atlantic to our soldiers in France. For cream shipped in these quantities means that that much more sweet milk can go to the condensers for army use, as well as for home consumption.

Express Agent L. B. Smith stated that these two shipments alone have set the high mark in cream shipments this season.

JUDGE MAKES ERRONEOUS PREDICTION REGARDING LAWYER.

"About one clean shirt is all I thought he would ever wear. He had fallen away to a mere shadow; was as yellow as saffron and often doubled up with pain. Doctors continually gave him morphine and were about to operate for gall stones. Mayr's Wonderful Remedy quickly restored him to perfect health again." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis, done will convince you money refunded.

YOU SHARE IN A GREAT NATIONAL SAVING WHEN YOU BUY

Wirthmor \$1 Waists
Welworth \$2 Blouses

You share in a great national saving whenever you buy one of these two famous makes of Blouses.

In the aggregate hundreds of thousands of dollars are saved by selling expense alone, much more in economies of large scale production, and quantity buying. But the important thing is that you save individually every time you buy a Wirthmor or Welworth, for all the savings that the contract plan under which these Waists are made and sold, goes back into the Waists in the way of extra value.

Add to their value superiority, the fact that in the Wirthmor and Welworth you always get the latest and most wanted styles, and then you'll understand why it's a prudent thing to become a wearer of these splendid inexpensive Blouses.
