

NOTICE OF SALE FOR DELINQUENT ASSESSMENTS.

Notice is hereby given to all concerned, that under and by virtue of a warrant bearing date the 13th day of July, 1918, issued by the Recorder of the City of La Grande, Oregon, and attached to the Assessment Roll, for the specific assessments hereinafter set forth and described, and placed in my hands for execution, and commanding and directing me to collect, as by Charter provided, the delinquent assessments on said Assessment Roll, together with accrued interest, penalties and cost of sale, I, the undersigned, Chief of Police of said City of La Grande, will on the 19th day of August, 1918, at the front door of the County Court House in La Grande, Union County, Oregon, at 2 o'clock P. M., sell at public sale to the highest bidder therefor, for cash, each tract, parcel and lot of the hereinafter described real estate for the payment of the delinquent improvement assessment set opposite each said particular tract, lot or parcel of real estate thereof, together with interest on said delinquent assessments, including interest on delinquent interest installments, as provided by ordinance of said City, with the accrued penalties upon said delinquent assessments, as provided by the Charter of said City, to-wit:

"STOP THIS WASTE OF MILLIONS."
SAYS TIRE FILLER INDUSTRY

Tire Filling Station on Italian Front Frank D. Meyer

"Forward" - Ordnance Trucks on Filled Tires

Can you beat it, "Air costs too much" an association of tire filler manufacturers says in a call for a convention soon to be held to take up on the heels of the new government rule, another war-time waste which runs into millions. Efficiency and war-time thrift demand that the enormous loss due to punctures and blow-outs of air-inflated tires be stopped.

"Cast-off casings representing a vast amount of money wasted can be and should be conserved," heads of the association declare. By discarding air for a standard filler thousands of miles have been added to truck and passenger car tire mileage, and reduced their upkeep in labor and money by a large percentage, according to 30,000 satisfied users of better-than-air fillers enrolled and ready to back up arguments to federal and city governments and to industrial and commercial houses which are now complaining of labor shortage and delivery charges.

"Whole regiments of men are employed needlessly to repair punctures and blow-outs," said Frank D. Meyer, the moving spirit of the association. "Every conceivable test of tire fillers has been made in the Chicago Essenkay laboratories in road service. The standard tire fillers are now well tested and others should become known as bogus. When there is a substitute for air no general can afford to send trucks forward subject to punctures or blow-outs, neither can shippers with rush orders in hand. Right now air as a tire filler costs this country untold millions annually, and our association will mobilize car owners to use filled tires that the waste of time, money and temper, caused by air-inflated tires, shall be stopped."
