KEEPING YOUR PLEDGE. W. S. S.

Buy your stamps early. Those you purchase are evidence that you are keeping your pledge. You also pledged yourself to economize during the war. The government is requesting that you do not buy articles not necessary for your health and efficiency. You will thereby release both labor and material for the manufacture of articles needed to support our brave boys "over there," who are just now so heroically driving the huns back. They make good their pledge. Are you keeping YOURS? Buy all you can afford. F. L. MEYERS, County Chairman. 8-19-18.

BOOSTS WARM SPRINGS PROJECT

Jimmy Donnegan, one of the leading men of Harney county, passed through La Grande yesterday on his way home from the metropolis. He was strong in his hopes for the future of the Warm Springs irrigation project which is coming along in fine shape now. One of the distressing things opened up by Jimmie was the fact that the hay crop in Harney county is in bad shape. The Belle A ranch, belonging to Bill Hanley, which always produces heavily in hay, is almost a total failure and the stock raisers of Harney are shipping out their stock now because of the short crop of hay. "We have never entered upon a winter season with such a gloomy aspect before us," said the Harney county man.

FROM THE PENCIL'S POINT

Constructive criticism seems to hurt as poignantly as any other kind. If all people said all that they think, the world might get used to that, too.

HEORISM OF SUB SAVED SITUATION

ARMED ONLY WITH A VALISE LED TROOPS TO VICTORY AND DEATH

LONDON, Aug. 19.—A wounded officer, just home states that there are lessons of different phenomena of heroism.

He tells of a young sub who never had been up the line before and was only there through a chance visit from headquarters when a vigorous attack commenced.

He was utterly unnerved by the terrific shelling, and stood trembling in every limb. With a shamed smile he said to another officer "I shall be all right in a little while."

A critical position arose on the left where a detachment had lost all its officers and was wavering out of the trench stopped this boy. He had only a valise in his hand.

Running in front of the wavering company he signalled it to come forward. It rallied and followed him. After he had gone forward 40 yards he was shot through the head and killed.

But by that time he had saved the situation. Plenty of Room to Grow. Australia, which is 23 times larger than the whole of the British Isles, has a population not exceeding that of London.

L. T. COOPER, NOTED PHILANTHROPIST GIVES LARGE PART OF INCOME TO CHARITY

Not in recent years, perhaps, has the coming of any public character aroused such widespread interest as has the proposed visit to Portland and other western cities of L. T. Cooper the Millionaire Philanthropist.

Mr. Cooper is described as one of America's foremost leaders of advanced thought, and sprang into fame and fortune through his new health theories based on what is known as the Tanlac treatment. He never ceases to surprise you with the infinite variety of his knowledge, and his absolute correctness and thoroughness. In several of the larger cities, he has done a great deal of relief work among the poor.

Mr. Cooper is a firm believer in practical philanthropy and his relief work is familiar to charity workers over the entire country. His southern representative, who in Houston, Texas, recently distributed, under the personal direction of leading charity workers, one thousand dresses of excellent quality to poor women and children. In San Antonio, the following week he donated another thousand and dresses to the poor of that city, and a few days later four hundred of the garments were provided by him for the poor women and children of Galveston. Ladies prominent in social life and many prominent citizens of these places assisted and cooperated with Mr. Cooper's representative in this worthy cause.

Gives 50,000 Leaves of Bread. Similar services were also performed by Mr. Cooper in Memphis, Birmingham, Atlanta, Little Rock, Shreveport, Chickaburg, Jackson, Nashville, Knoxville, Chattanooga, Hacon, Savannah, Montgomery, Mobile and Augusta, and his establishment of the famous bread line at Louisville, where he distributed 50,000 loaves of bread absolutely free and without question to those in want, proved a revelation to charity workers there. In fact, in practically every city Mr. Cooper has visited he has always shown his great sympathy for the poor and unfortunately by performing some unique act of charity.

Mr. Cooper contends that nine-tenths of the disease and ill health of the present day in America is due to faulty digestion and improper assimilation of the food, which finally produces a stuffed up condition of the vital organs.

It has been said that Tanlac is now celebrated medicine, which is now accomplishing such remarkably results throughout the country, not only quickly overcomes all attacks of inflammations of the mucous membrane, but acts directly in the correction of stomach, liver, kidney and intestinal disorders. Tanlac has been so extensively proven by the thousands upon thousands who have endorsed it, it is also a reconstructive tonic of great power, and has been known to entirely relieve the most obstinate cases of rheumatism and blood disorders in a very short time.

Tanlac Sales Phenomenal. It is, indeed, doubtful if anything ever placed on the market in the way of a medicine has sprung into such popular favor as so about a time. People everywhere have been quick to recognize its wonderful merit. The demand for it has been nothing short of phenomenal.

In Seattle, Washington, over 500,000 bottles were sold and distributed by jobber and retailer in eight weeks time, which established a new record there, and is unprecedented in the history of the drug business. In Denver over 65,000 bottles were sold in six months. In Ft. Worth, Texas, 122,204 bottles were sold in twelve months time. In Atlanta, Georgia, over 156,000 bottles were sold in twelve months time. In Dallas, Texas, 129,000 bottles were sold in 12 months time. In Knoxville, Tennessee, the Kullman-Charlton Co. sold and distributed 48,224 bottles in nine months. In Louisville, Ky., the Taylor-James Company, who operate eight retail stores in that city sold 32,000 bottles in less than ninety days. In fact everywhere Tanlac has been introduced, its sale has been likewise phenomenal and the demand for it is continually increasing. A total of more than two and a half million bottles of this medicine has been sold through the Atlanta office alone during the past eighteen months, and it is without doubt the most

Most Extraordinary in Value are these New Welworth Blouses

The fixed uniform price of the Welworth Blouses throughout the entire country has been \$2.00 for the past several years—Despite advancing materials and labor costs—the price has not as yet advanced, while the quality has been fully maintained—making the values greater than ever in the past.

Isn't there a deep feeling of satisfaction to know that the Blouse you buy is of the same new modish style that is being offered for the first time in the country's style centers.

—Likewise, to know that the price you pay for the Blouse is the lowest possible price at which a Blouse of like character can be sold; that the price you pay is, in fact the exact price at which the same Blouses are sold in the largest stores in the largest cities. And is not this assurance adequate reason why you should prefer the nationally known and nationally favored Welworth —the Blouses that are sold at the same price the nation over?

—The new Welworth Blouses that go on sale tomorrow would warrant a much higher price than \$2.00. There are just a limited quantity, and when these are gone no more of the same styles will be obtainable. It always pays to buy the Welworth when wanting an inexpensive Blouse.

Welworth Blouses in This City are Sold Here Exclusively.

widely talked of medicine today. When asked to explain this record breaking demand, Mr. G. F. Willis, international distributor of Tanlac, said: "There can be only one possible explanation, and it can be told in one word, 'merit.' That tells the whole story. No preparation no matter how extensively advertised, can possibly meet with such phenomenal success unless it possesses extraordinary curative power.

Thousands upon thousands are testifying daily that they have been relieved of disease after years of suffering by its use. Tanlac is sold in La Grande by Silverthorn & Richardson; in Union by L. A. Wright; in North Powder by L. A. Russell and in Elgin by Scott & Harris.—adv.

SIX MILLION CASUALTIES SUSTAINED BY HUNS DURING WAR

PARIS, Aug. 19.—The total of the German losses from the war to the end of July, 1918, are understood to be 6,000,000, according to the morning newspapers.

The figures include 1,400,000 killed up to the beginning of the German offensive last March. From March 27 to June 17, the Germans are said to have lost 129,000 killed alone.

Germany has acknowledged her manpower is dwindling in proportions great enough to cause anxiety to the allied armies and the prospect of being confronted by ever-growing American forces has caused General Ludendorff to issue imperative orders for the first time in order to recover from auxiliary units all men capable of entering the trenches.

Appended to the order are special instructions to Field Marshal von Mackensen and General von Scholtz to make a greater demand upon the local personnel, instead of using Germans in the auxiliary service as reinforcements.

SUMMER COMPLAINT.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept on hand. Mrs. F. P. Scott, Scottsville, N.Y., states: "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."
