Miss Stella Bodmer, of La Grande, is visiting at the home of Mr. and Mrs. Herbert Chandlee-Baker Herald.

Mrs. E. Hollister left yesterday for Corvallis, where she will visit relatives for several days. She will also spend some time in Portland before returning home.

Mrs. Howard Davis today received a letter from Mrs. Bird Lewis, stating that they were at Cedar Rapids, Iowa, when the letter was written and that rains in the middle states had hindered their automobile journey very much. They will return by way of Yellowstone Park, expecting to arrive here about September 10.

Among the pleasant things that happened to General Manager M. J. Buckley yesterday afternoon, was the receipt of a long and interesting letter from his son, Lt. F. J. Buckley, now in France. July 24, post marked August 1st and only received yesterday. Mr. Buckley, in entertaining some friends in his car after dinner, endeavored to figure out the U. S. soldiers' mail schedule, but arrived at an unsatisfactory solution of the problem.

Tom Tweedy, who has been postmaster in Pendleton ever since it was first possible for George Chamberlain to name a Democrat to that office, was over last evening visiting his old friend, Walter Pierce. These two men formerly farmed wheat and Indians together on the reservation in Umatilla county. Tweedy, who denies any resemblance or relationship to old Bear Tweed, is firm in his conviction that the Democratic party is entrenched to stay in office in the nation and also holds to the belief that Walter has a good going chance to be elected governor of Oregon this fall.

Libby Mellee, a wheat grower and one of Pendleton's rich men, was in La Grande recently on business. He was formerly a large land owner in this valley. Speaking of the various things that have happened recently in the Round-Up town, he said his old friend, Tim Taylor, was now ostracized from good society because a sheriff of Umatilla county he put on his gum shoes and willfully swooped down upon a man who had opened up a profitable, lucrative and labor-saving business in the mountains, confiscating his goods and breaking up his factory. This was all done in the name of the law, said Mr. Mellee. He had reference to a moonshine still which Taylor put out of business a short time ago.

LOCOMOTIVE ENGINEER SAYS.

Overwork and worry cause kidney trouble. When the kidneys are not working properly, poisons accumulate in the system, resulting in backache, sore muscles, stiff joints, rheumatic pains, constantly tired feeling and other distressing symptoms. George McLain, Turtle Lake, N.D., writes: "I am a locomotive engineer. I had a bad pain in my back and my bladder action was very irregular. I took Foley Kidney Pills and was relieved in a couple of days."

others were on the dirt streets. Have hauled considerable gravel on C street and all the crossings on that street are now in fair condition. More gravel will be necessary to make the street smooth. We are working on this street this week. We now have the prices on the meters from the other meter agencies, which I herewith submit for your consideration.

Visited the Beaver Creek reservoir last Friday and Saturday and found the water in the reservoir in first class condition and free from any foreign matter. The supply is still sufficient to carry us through the season. Will put a crew building the spillway some time this week. This work should be done before the bad weather sets in and there is now available labor.

In view of the fact that most of the street signs are either gone entirely or badly defaced I hereby submit a sample of street signs which I deem advisable to place at the intersections. It will require some two hundred of these signs and the total cost will not be over \$50. I ask the consideration of the sample sign offered for your approval.

IT'S IN THE AIR.

Windblown pollen, carrying the bacteria that inflame nose and throat and cause hay fever, is abroad in the land. One remedy is known to give relief and comfort from choking, gasping asthma and tormenting hay fever. That reliable remedy is Foley's Honey and Tar that spreads like a healing, soothing coating on the inflamed membranes, stops irritating coughs and summer colds. Anyone who has once used this standard cough and cold remedy will accept no other.
