SHERRY'S

TREASURE ISLAND. Ho for the bounding main! Heave ho for the smell of the salt sea air and the romance and ad-

venture Island," with all the pirates and bad men that Robert Louis Stevenson put in at the Sherry Theater for the last showing today; a magnificent picturization of the great novel, made by William Fox, wizard of screencraft, will be shown there.

The cast of the production is headed by Francis Carpenter, who plays the role of Jim Hawkins. Having come by a chart of the island on which the notorious Flint buried his ill-gotten gains, Jim sets sail for the place.

When he arrives, he discovers that his crew is composed mainly of former shipmates of Flint, who take the first opportunity to mutiny. Then follow fights and thrilling adventures, which finally end with the triumph of Jim and his regaining of the buried treasure.

When you were little you played Indian or cannibal or pirate. You danced in joyous circles about a troubled captive, you shot imaginary arrows at imaginary enemies, or you steadfastly made a prisoner walk the plank, while you (shore dug for buried treasure.

There's no use saying you didn't. You were like every other boy and girl who ever lived, and you found your greatest pleasure in the wild romancing of adventurous imagination.

That is why "Treasure Island" appealed to you so strikingly when you were little. That is why it still holds you rapt, even though you're a grown-up child. That is why the magnificent picturization of it which William Fox has made will tempt you to sit through two or three performances of it.

The things to consider in buying a Tractor, are first, does it have sufficient width of wheel to hold it up in soft ground, and get a grip on the ground that will not slip. This is all important, for a Tractor without traction is a farce. Next, see that it has weight enough to hold it to the ground (not surplus weight), but it must grip the ground, for it loses power when the wheels slip. Then it must have engine enough to turn the wheels.

The SAMSON wheels are 64 inches wide, and it weighs 5800 pounds; the engine will turn the wheels almost any place. Together with its large crank shaft, its low down, sturdy construction, its all-around dependability, you may look a long time before you find its equal, and we doubt whether there is a superior. Let us show you. It has a record of 100 acres in 100 hours, in this valley, at a cost of 36 1/2 cents per acre for gas and oil.

SHEEP FOR SALE

1500 Extra Good MERINO EWES, weighing 100 pounds and better. These sheep will be in the valley and ready for inspection at an early date. Will be ready for delivery November 1, 1918.

A Fine Ranch Sheep

These ewes will be crossed with Hampshire and Shropshire Rams, which insures a fine lamb and a quality of wool that brings the highest price. Will sell them in lots of 10 and up.

A little needed attention to your fences is all the expense required to run 100 sheep, and they will clean out the fence corners and your summer fallow better than any weeder made, and in addition pay for themselves the first season. We are prepared to give you the lowest possible price on this stock and sell them to you on very attractive terms. Here is an opportunity to help the Government with an extra production of wool, and make you extra money for bonds and taxes.
