Has a High Opinion of Chamberlain's Tablets.

"I have a high opinion of Chamberlain's Tablets for biliousness and as a laxative," writes Mrs. C. A. Barnes, Charleston, Ill.: "I have never found anything so mild and pleasant to use. My brother has also used these tablets with satisfactory results." —Adv.

ACQUIRING A PERFECT FIGURE

Most women who have perfect figures did not have them originally. They have acquired them. A woman gradually takes the shape of her corset so the corset produced by the most artistic designer is the right one to wear to secure a perfect figure.

MODART CORSETS
Front Laced

are most symmetrically and artistically designed. They are comfortable, stylish and gradually mold the figure into those beautiful lines that every woman admires and desires.

The things to consider in buying a Tractor, are first, does it have sufficient width of wheel to hold it up in soft ground, and get a grip on the ground that will not slip. This is all important, for a Tractor without traction is a farce. Next, see that it has weight enough to hold it to the ground (not surplus weight), but it must grip the ground, for it loses power when the wheels slip. Then it must have engine enough to turn the wheels.

The SAMSON wheels are 64 inches wide, and it weighs 5800 pounds; the engine will turn the wheels almost any place. Together with its large crank shaft, its low down, sturdy construction, its all around dependability, you may look a long time before you find its equal, and we doubt whether there is a superior. Let us show you. It has a record of 100 acres in 100 hours, in this valley, at a cost of 36½ cents per acre for gas and oil. "Home of the Samson Side Grip." 1529 JEFFERSON STREET

Don't Always Blame the Telephone Operator When You Are Called By Mistake

Were you ever called to the telephone when another number was wanted?

When this occurs, the operator, to be sure, may have humanly erred by ringing on the wrong line. More often, however, it is the fault of the person making the call.

People often ask for 456, for example, when 546 is wanted and then either "hang up" when the mistake is realized or become impatient when the wrong person answers.

Unfamiliarity with the work of telephone operating often prompts unjust criticism. Please don't forget the earnestness of the operator's effort when some occasional service difficulty does arise.
