Camels in War.

Camels in war are stationed among clumps of acacia trees, with a spy mounted on a camel's neck. This is the safest place, for the camel, standing with only his head above the trees, looks like a bit of the foliage in the distance. Camels are good for desert warfare, because they can go without water so long and can easily carry loads weighing from 400 to 500 pounds.—Selected.

Love and Sympathy Needed.

Goodness should be the most attractive thing in the world, but we do well to remember that mere correctness of life and principle, unutilized by love and sympathy, lacks the qualities that charm.

A WANT AD will do it.
