RED CROSS DRUG STORE

BIG SURPRISE TO

MANY IN LA GRANDE

People are surprised at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE of sour stomach, gas or constipation and prevents appendicitis. The INSTANT, pleasant action of Adler-I-ka surprises both doctors and patients. It removes foul matter which poisoned your stomach for months.—C. D. Putman.—Adv.

where they went to attend the funeral of Mr. and Mrs. Brandt. They report that the ravages of the epidemic in the little mining town are horrifying. There are an average of five burials a day, but there are instances when they have run as high as 18 in one day. This in a town of about 4,000 inhabitants. The public school as well as every other available public place has been converted into a hospital to care for the hundreds of sick. It is believed that the weakened condition of the lungs of miners gives less resisting power in the patient and consequently makes the death rate in these places much higher than the average. The condition is reported as

Mrs. Raymond Stiles, who has been employed on the District Board of Appeal at F. S. Ivanhoe's office for some time, left yesterday for The Dalles, where she will make her home. Heat Your Entire House From One Register

SIMPLE — WARM — COMFORTABLE

Just this one large register. The hot air comes up through the center circle and the cold air goes down the other compartment between the circle and the border. It's right over the Quaker Pipeless Furnace. More heat—and just where you want it—always ready. To warm that cold room, just open the door. The

Quaker Pipeless Furnace

has no pipes, no bulky cold air returns. Your walls are not torn up, no ceiling is too small. Will burn any fuel. Particularly adapted to soft coal. Special built-in register keeps the air always moist. The furnace is built of heavy boiler plate steel, no crevices, joints to leak gas, dust or soot. Fire pot lined with high-test fire bricks, capable of withstanding 3000 degrees of heat. An abundance of clean, pure warm air sent to every room. Simpler than a stove to operate, cleaner, more saving in fuel, and much more healthful. Sends heat to every room in the house. Ventilates as well as heats. Changes and purifies the air to every room. Keeps the cellar cool for fruit and vegetable storage.

SPAETH & GOSS

Always show direction of air currents.
