Wheat Ranch For Sale

To settle an estate, the R. J. Morton place, in Lower Cove, consisting of 200 acres, will be sold at a sacrifice. Every foot of this land is under cultivation. It is all level ground. Spring on place. About eight acres bottom land growing 12 tons wild hay. Place is leased this coming year for one-third the crop. Last year under this same percentage of crop, the place paid 10 per cent of what is being asked for the place now. Lessee can be paid for plowing already done (about 60 acres) and buyer take full possession. This must be an outright sale without any trades, but responsible people can get good terms. For further information write P. C. BINEHART 282 Monroe Street, Portland, Oregon.

HEATERS

RIGHT NOW is the time for you to buy your heater. We have a complete line of new and used coal and wood heaters, for you to pick from. Let us explain to you the many superior points of our Famous Patent Heater, the one that burns coal, wood, smoke and gas—nothing wasted. You may turn in your old heater or any other household furnishing you wish to get rid of, as first payment. Do not buy until you try us. Our quantity discounts pay your dollars. CHURCHES NOT HARD TO FIND

Religious Edifices in England Where the Congregations are of Necessity Rather Small.
There are many churches that attract attention by their size and grandeur. There are a few that are remarkable by reason of their smallness and simplicity. One of these is at Lullington, Essex, England.

SAILOR FEEDING REFUGEE CHILDREN

Many refugees from Morgan, N. J., where their homes were destroyed by the explosion of the munition plant in that town, were fed and taken care of by United States sailors and soldiers, and also by the American Red Cross.

It is a primitive and quaint stone building with a roof of red tiles and a tiny weathered turret at its west end. This miniature church is only 40 feet square. Its pulpit is a pew with paneled sides and door and the furniture is of the plainest. Five narrow, diamond-paned windows give light to the interior. When the church is full 30 persons are gathered together.

Only a little larger is the meeting house at Crayke, a village near Burnley. It is known as the Friends' meeting house and is covered with ivy and surrounded by a well-kept garden. Inside may be seen half a dozen oak benches that could, if necessary, accommodate 60 persons. The attendance is rarely more than six.

Majesty of the Law.
"Here, now," sternly commanded Constable Sam T. Shapshire, the respectable sleuth of Pennin. "You fellows move on there! Scatter out! You're blocking the sidewalk so folks can't get along. And, besides all that, I want to see a little of that there dog fight myself before it is all over."
"Here, now," sternly commanded Constable Sam T. Shapshire, the respectable sleuth of Pennin. "You fellows move on there! Scatter out! You're blocking the sidewalk so folks can't get along. And, besides all that, I want to see a little of that there dog fight myself before it is all over."
"Here, now," sternly commanded Constable Sam T. Shapshire, the respectable sleuth of Pennin. "You fellows move on there! Scatter out! You're blocking the sidewalk so folks can't get along. And, besides all that, I want to see a little of that there dog fight myself before it is all over."

YANKEES ARE USING GIANT NAVAL GUNS

Hun 70-Mile Rifle Is the Only Bigger Weapon at Front.

Announcement from France that American 16-inch naval guns, manned by naval gun crews, have come to the front, disclosed that through efforts of the ordnance officials of the navy, General Pershing's forces are now equipped with the most powerful and hardest-hitting weapons yet used in the present war, ashore or afloat, so far as is known.

The 16-inch rifles are similar to those designed for use aboard the newest American dreadnaughts. They are 50 caliber, more than 45 feet in length and weigh approximately 300 tons without their carriages.

Without question they are the longest-range guns in use, except the German super-guns, which are regarded merely as a mechanical freak. The projectile weighs close to a ton and its bursting charge of the most powerful explosive known is measured in hundreds of pounds against the few pounds in the German super-gun shell. The destructive effect is enormous.

Plans for using big rifles for the army are understood to have been worked out entirely by naval officers. The theory that their great weight would not permit their use, except in fixed concrete and steel emplacements, furnished the chief obstacles to be overcome.

These are not the only great naval guns employed by the American army. American naval gun crews have played an important part on several sectors of the battle front for months, handling the weapons of 12-inch bore. The story of their enterprises has never been made public, however, for military reasons.

BROTHERS MET ABROAD

Had Been Separated for Years, but Both Joined the Service.
Separated for five years, Billy and Herschell Haywood met in France the other day, according to news received by the father, J. D. Haywood of Seaside, Ark. Herschell, who was living in California, enlisted in the navy and was on board the California when it was sunk several months ago.

He was picked up by another vessel and taken to France. Happening to be in a French port when a transport arrived with American soldiers, he went to the wharf in hopes of seeing some friend from the states. Billy Haywood had enlisted in the army and was on the transport. When the soldiers disembarked, Billy spied Herschell and the two brothers were soon together, and are in camps within a few minutes' walk of each other.

War Relief Shop Open.

A war relief shop, believed to be one of the first of its kind in the state and one of the few in the country, has been opened at Sheboygan, Wis. All articles in it are donated and the receipts from the sales are used for war relief purposes. The shop is open two days a week and its patronage has increased to such an extent that larger quarters recently became necessary.

Has Wedded 1,138 Couples.

Rev. Dr. Calvin S. Blackwell, who for years was pastor of Freemason Street Baptist church, Norfolk, Va., while supplying First Baptist church of Lynchburg, Va., for September, performed his one thousand one hundred and thirty-third marriage ceremony.

Freak Cucumber.

J. W. Applegate, of Mount Zion, Ky., has a cucumber that is quite a freak. It is just the shape of a hand, with four fingers and a thumb. Mr. Applegate thinks it is the hand that will write the ruler's doom on the wall.

Success is a Matter of Alertness.

The fact that many people are non-successful is due to the fact that they cannot think for themselves. Success is a matter of alertness. You can be a leader and become alert.

Armor Again in Use.

An experiment in using armor again very much alive. The armor is at work turning out armor for fighting men; and, in a most distinguished sense, the chief armor of the Metropolitan Museum of Fine Arts, New York, Daniel Tachau, has been working for modern warriors with the very hammers and anvils that once were used in armor for their medieval forerunners.

Greatest Jackplane.

A machine so gigantic that the curvature of the earth's surface had to be taken into consideration in its construction, is being built for the United States army as part of the program for the "salvage" of war waste, says World's Work. It is a huge planer, 500 feet long, which is to be used in the manufacture of gigantic lathes, which in turn are for use in the enormous "rolling" plant which the ordnance department is building in France.

Fewer Students.

War and the industries made necessary by war have had the effect of depleting the student bodies of English universities to an extent that will be serious this year. At the University of Birmingham, one of the most modern and progressive seats of learning in Britain, where scientific training is a specialty, all the graduates who received the degree of bachelor of science this year were women.

English Golfing Statistics.

Englishmen, when their attention is not occupied by war, make use of 105,000 acres of land for the purposes of golf playing. There are 2,000 organizations, with nearly 300,000 members, and about 7,200,000 balls are made use of annually.

To Guide Workers in Mines.

The United States bureau of mines has had some of its officials working for three years on a set of rules to suggest for use where electricity is used in mines, and the work has been published for circulation among those interested.

Utilizing an Antipathy.

"Which are you going to do?" asked Memminger Mike, "work or fight?" "I'm going to start in," answered "Saddling Pete," "by workin' a little. Dat always makes me feel like fightin'."

Simply the Only Thing to Do.

"Do you think it is proper to use profanity to a mule?" "So far as my own feelings are concerned," declared the expert tanner, "it is highly improper. But when you are trying to get along with a sensitive and exasperated animal as a mule you've simply got to humor him."

Modern Version.

While little Helen was at Sunday school they repeated the Twenty-third Psalm and when she arrived home, her mother asked her what she had learned that day. Helen replied without hesitation: "The Lord is my chausseur, I shall not walk."

Heredity.

Some people never get over their birth and raising. The higher in a tree a monkey climbs the more of a monkey he becomes.—Paterson Call.

Observer advertising will bring results.

is superior to any other front lace corset, for without the Ventile features no corset can possibly be just as good. It contains the master touch of scientific construction.

You do not sacrifice comfort for style and you do not sacrifice style for comfort when you wear

Seattle Officer Tells of Trouble.

Collins Was Roughed Down and Out—Gains 25 Pounds By Taking Tanlac.

"A medicine that will do as much for suffering people as this Tanlac has done for me is certainly worth recommending to the public and I can't say too much for it," said John W. Collins, of 1214 East Columbia street, Seattle, while in a Bartell drug store, recently. Mr. Collins has been a resident of Seattle for the past thirteen years, and is a popular member of the police force.

"When I began taking Tanlac," Mr. Collins continued, "I weighed only one hundred and fifty pounds and was in such a bad condition that I could not patrol my beat. But, now I weigh one hundred and seventy-five pounds—and feel fine. I have had trouble with my stomach for several years. Nearly everything I would eat disagreed with me. My food would almost invariably sour and keep me filled with gas and misery most all the time. Then sometime ago I had a fall of about thirty feet which came near putting me out of commission. On top of this I had an attack of grippe and I simply got to where I was just about down and out. My whole body seemed full of neuralgia and rheumatism and I ached all over. Every joint in me ached and the pains in the left side of my back, over my kidneys, were so severe at times that I could hardly stand it. Nothing did me any good and finally I just had to give up my position, stop working entirely and do nothing but try to find relief. My sleep was very poor and I kept falling off in weight until I got down to one hundred and fifty pounds.

"Then I got uneasy about my condition, went to Colorado and stayed there for a while but never did get any better until I began taking Tanlac, and then I commenced getting right up. I have used six bottles now and have gotten rid of all that neuralgia and rheumatism entirely and never feel an ache or a pain. My appetite is great and my stomach is in such a good shape that I can eat just anything I want without the least trouble afterwards. I now sleep like a log every night and am in splendid condition in every way. I'm going back to work tomorrow, and I cheerfully recommend Tanlac to everybody."

Tanlac is sold in La Grande by Silvesthore and Richardson Drug stores; in Union by L. A. Wright; in North Powder by L. A. Russell and in Elgin by Scott E. Harris.—Adv.

Enamelled Ware.

The best way to clean enamelled ware is to use a little ordinary salt and soda; this will keep it in new condition.

MR. MICAWBER

made famous by Dickens, is noted for the wise expression:

"Annual income 20 pounds, annual expenditure, 19-6, result, happiness. Annual income 20 pounds; annual expenditure, 20 pounds, 0 and 6, result, misery."

This was his way of saying that success or failure depend upon the ability to live within one's income.

Earn all you can; spend what is necessary—and always save a portion.
