SHERRY'S

E. H. SOTHERN EXPERT FENCER

Star Gives Examples of Act at Sherry's Theatre.

The big attraction at the Sherry theatre today only, "An Enemy to the King," the Vitagraph Blue Ribbon feature starring the most famous actor of the modern stage, E. H. Sothern, and Edith Storey, the versatile star, is Mr. Sothern's own choice of the play which he wished to make immortal.

The story, which takes place at the time of the trouble between the Catholics and the Huguenots in France while Henry III reigned, calls for a number of fencing scenes, in which Mr. Sothern participates.

These scenes are correct to the minutest detail, for this world-renowned star is a master in the art of fencing and superintended the directing of these scenes as well as taking part.

The scenes are the pattern used during the reign of Henry III, and the methods employed at that time are also shown. Mr. Sothern offers several examples of clever shielding and defense which are sure to arouse the utmost enthusiasm on the part of his audience.

This renowned immortalization will live for years to come and find its place at the head of film masterpieces. It gives to the masses the favorite characterization of one of the greatest actors the world has ever recognized.

Edith Storey, who plays with Mr. Sothern in this production, has a role

remarkably fitted to her type, and one would think the part created for her benefit, so aptly does she carry each and every scene.

Together, Mr. Sothern and Miss Storey form a most attractive combination—one that it seems a pity to lose on Mr. Sothern's retirement to private life.

A comedy will also be shown at Sherry's theatre at this performance.

BOL DRINKING WATER

Owing to the shortage of water at Beaver creek it is now necessary to get part of the supply from the Grande Ronde river. All water needed for drinking purposes should be boiled as a precaution against germs of contamination. While the conditions at the river are much improved over former years, there being now little or no chance for contamination from the meat company's plant, the city health board urges boiling of drinking water as a precautionary measure.

"Eight years ago when we first moved to Mattoon, I was a great sufferer from indigestion and constipation," writes Mrs. Robert Allison, Mattoon, Ill. "I had frequent headaches and dizzy spells, and there was a feeling like a heavy weight pressing on my stomach and chest all the time. I felt miserable. Every morsel of food distressed me. I could not rest at night and felt tired and worn out all the time. One bottle of Chamberlain's Tablets cured me and I have since felt like a different person."—Adv.
