BOYS PILE UP RECORD SCORE

NORTH POWDER DID NOT HAVE A LOOK IN.

High School Basketballers Pass the Century Mark in Game Here Last Night.

When the La Grande High school team walked off the floor when the final whistle had blown, ending the basketball game between them and the North Powder town team, they had just established a record unheard of in this part of the northwest. They scored 101 points to their opponents' 0.

The locals shot baskets from all angles, but most of them were due to short snappy passes which brought the ball directly under the net where shots were easily made. As it were, though enough shots were missed that should have run the score up another 50 points. In the last half substitutes were sent in, but they, too, slipped in several baskets that helped run up the score.

Lyman, playing center was the star of the evening, besides getting the jump off at every try made an individual score of 43, really enough to win any game itself. Kivette at forward also did some good shooting while the guarding of Ash and Wright was of the best, their forwards never getting a shot at the basket only from the middle of the floor.

To those who missed the fun last night, it is advised that they attend the game with Union here Friday night, as they will be given their money's worth. The local high school has a team almost as strong as the squad of last year and are playing a bang up game.

- The lineup and score:
- La Grande North Powder
 - Kivette (22) Garrison
 - Leibetter (11) Jones
 - Lyman (6) Duckworth
 - Ash (13) Whitt
 - Wright (16) Lindley
 - Proctor (8) Stoddard
 - Stoddard (2) Black
 - Corbett (6) Wallsinger
 - Theisen (1) Lyman
 - Referee—Lyman
 - Timekeeper—Ash

Persons to Avoid. Unwelcome are the letterer, who makes appointments he never keeps; the consultant, who asks advice he never follows; the booster, who seeks for praise he does not merit; the complainer, who whines only to be pitied; the talker, who talks only because he loves to talk always.—Selected.

WITH THE COLORS

RECEIVED D. S. CROSS.

J. W. Dunbar of this city is in receipt of the following letter from his brother, Charles F. Dunbar, who is a member of company E, Fourth engineers:

Dungenheim, Germany, Jan. 10. Dear Brother: Will answer your letter I received today. Sorry to hear that your folks have the flu. I am feeling fine and am having a very good time. The German people here sure treat us fine. This is a nice looking country and we are having fine weather. I received the Christmas box all O. K. The contents were just simply fine.

I received a distinguished service cross for services I performed on the Vesle river, France, August 5, 1918, and I am sure proud of it. I went through a little hell when I was on the river, but I would not trade my experience for all the gold in the U. S. A. But I am glad it is all over and that I don't have to go through it again. We sure had some hot stuff in the Argonne drive. I was in Mont Faucon, Septsarges, Malancourt, Mar-tillois and all around that part of the country and it sure was a hot place in the fight. I will tell you all about it when I get home and I think I will get to come in two or three months.

P. S.—I will give you the citation received with my cross: "For extraordinary heroism in action west of Fismes, France, August 5, 1918. Corporal Dunbar was a member of a small detachment of engineers which went out in advance of the front line of the infantry, through an enemy barrage from 77-millimeter and one-pounder guns to construct a foot bridge over the river Vesle. As soon as their operations were discovered machine gun fire was opened up on them, but undaunted the party continued at work, removing the German wire entanglements and successfully completing a bridge which was of great value in subsequent operations."

BOOKS FOR BABIES

The government, in issuing a list of "good books and pamphlets on child care," shows that some official interest is being manifested in the young of the human species. There was a time when Uncle Sam seemed much more interested in the growth and development of hogs, chickens and other livestock than in his own nieces and nephews. The advent of Agent Smuckler into public life has changed all this. Women as citizens demand rights for their babes, and are getting them.

These books are not for babies to read. But they are very important for babies to have about the house. Every well regulated baby should insist that his mother own and read until she knows its substance thoroughly at least one of them.

Every mother, actual or prospective, should send to the Children's Bureau at Washington for its leaflets on child care, particularly for the list of books. Then she should order at least three of these books. Some are issued free. None are expensive. Having received them, she should study them. And practice them.

No baby brought up on Kerley's "Short Talks with Young Mothers," so child fed on Hunt's "Food for Young Children," no mother who follows the advice of Mrs. Max West on "Prenatal Care" is going to be far from well. It is the experience of mothers whose children were brought up "according to Kerley" to have strangers stop them on the street again and again with "how well your children look! What do you feed them?" This happens both with mothers who have paid high prices for personal consultation with the famous specialist, and with those who have stuck to the advice in the simple and sensible little book recommended by the government.

All the books have been chosen with equal care. It is up to every baby to demand that his mother write her postcard to the Children's Bureau today, asking for this list and all the other free leaflets.

Work has begun on the Flora-Enterprise state road in Wallowa county.

Getting Rid of Colds.

The easiest and quickest way to get rid of a cold is to take Chamberlain's Cough Remedy. This preparation has been in use for many years and its value fully proven. No matter what remedy you use, however, care must be taken not to contract a second cold before you have recovered from the first one, and there is serious danger of this. A man of middle age or older should go to bed and stay in bed until fully recovered. It is better to stay in bed three days at the start than three weeks later on.—adv.
