SHERRY'S

POOR RICH MAN

Never have the brilliant co-stars, Francis X. Bushman and Beverly Bayne, had a more enjoyable vehicle than "The Poor Rich Man," which will be shown at the Sherry theatre last showing today. Action, romance and the exhilarating sort of adventure that is both physical and mental make of this five-act photo-drama a wholly delightful feature. Mr. Bushman plays Vantyne Carter, a "glided youth" whose father finds a unique way to make him buckle down to work and show the stuff he is made of. Miss Bayne plays sweet Arizona Brown from the West, and she captures Vantyne's heart in an unexpected meeting in "Peacock Alley" of a New York Hotel. Both a villain and a clever adventurer do their utmost to make Van fall in the work undertakes, but with the aid of Arizona, he triumphs. The story is "different"—it has humor as well as red-blooded action. Everybody will enjoy "The Poor Rich Man." Chaplin in the "Ham Artist" furnishes an enjoyable bill. Last showing today.

Getting Rid of Colds
The easiest and quickest way to get rid of a cold is to take Chamberlain's Cough Remedy. The preparation has been in use for many years and its value fully proven. No matter what remedy you use, however, care must be taken not to neglect a second cold before you have recovered from the first one, and there is serious danger of this. A starting cold in bed usually leads to a bad cold, in bed usually fully recovered. It is better to wait in bed these days at the start than to be worse later on. -S.D.

DRUMMER ELECTS ALLEN
TOPEKA, Kan., Feb. 17.—When Henry J. Allen was honored for governor at the Republican primaries Harvey Motter, a "drummer" took the job of managing his campaigning. Allen rolled up 159,000 majority, also.

"You can have anything you want, Harvey," Allen is reported to have told Motter.

ROBBERS "CLEAN HOUSE"
KANSAS CITY, Kan., Feb. 17.—An unfeeling burglar entered the home of Mrs. E. A. Carter, and her sister, Miss Anna Nevaril, and after taking all their money stole all of their clothing, shoes, stockings, neckties—and everything. He even stole a revolver their father had purchased for their protection, and in leaving, left the window open, so the girls found their pet home plants frozen.

FARMERS NOTIFIED
Implement Manufacturers Advise Early Overhauling of Machinery.

All users of farm implements should anticipate, so far as practicable, the necessity for repairs and replacements sufficiently in advance of the working season to make it possible to put their implements in good working condition before the spring operations begin.

This is the gist of a telegram from the secretary of agriculture to E. W. McCallagh of Chicago, secretary of the National Implement and Vehicle association. Secretary McCallagh's telegram was in response to one from Mr. McCallagh advising him that manufacturers of and dealers in all lines of farm operating equipment have agreed, in the interest of economy and conservation, to join in writing farmers to inspect their equipment and to order necessary parts in advance of the time they are needed.

Manufacturers and dealers declare that if they can know sufficiently in advance the needs of the farmers for repair parts, these parts can be supplied when they are needed. If the parts are not known to be needed, the farmers and dealers, until the actual time for repair, troubles and costly delays are likely to be caused—delays that may be felt in decreased production at harvest.
