OUR BUSINESS More than a Machine

We regard our business as more than a mere money-making machine. While under private ownership it is absolutely necessary to conduct any business at a profit. We want the satisfaction of knowing that we are not just another store. We take a whole lot of pay in satisfaction in knowing that we are supplying a distinctive need in the community—BEING USEFUL—people are looking more than ever for VALUE. They want the worth of their money. Our constant effort is to give greater values. We make mistakes. All men do, but we are quick to rectify them and our daily increasing business is evidence that we are hitched to the right star—the cash system.
