

TREE PLANTING

Every Soldier of an Illinois County to Have a Memorial.

ROCKFORD, Ill., Feb. 25.—Every soldier from Winnebago county is to have a memorial tree planted for him under a plan worked out by G. J. Boehland, which was sent today to the American Forestry association at Washington, which is urging the planting of such memorials throughout the United States.

As a result 4000 trees will be set out in Winnebago county to stand as living monuments to the service for democracy of the men from that territory. Mr. Boehland in making his offer said he wanted to perpetuate the patriotism of these men and at the same time increase the community's natural resources.

The trees are to be distributed among families having a relative in the service and may be planted in whatever spot is selected. If the soldier or sailor has no kinsman there, some friend is expected to see that a tree is planted for him. If there is no one to plant a tree for a man who paid the supreme sacrifice, Mr. Boehland himself will see to the planting.

"This is a fine thing to do, for there can be nothing more fitting than a beautiful growing tree," said Charles Lathrop Park, president of the American Forestry association, in a message received here. "The trees will stand as a daily reminder to all of what they owe to these men. The trees will be a lasting blessing to the whole community and Rockford and Winnebago county are to be congratulated."

HOW PEOPLE SLEEP

If Adam Started Counting He Would Not Reach Billion Mark.

The following remarkable calculation on the length of time which it would take a person to count a billion recently appeared in an issue of the English Mathematician:

What is a billion? The reply is very simple. In England a billion is a million times a million. This is quickly written and quicker still pronounced. But no man is able to count it. You will count 100 or 170 a minute. But let us suppose that you go as high as 200 a minute, hour after hour. At that rate you would count 12,000 an hour; 288,000 a day, or 105,120,000 in a year. Let us suppose now that Adam, at the beginning of his existence, had begun to count, and had continued to do so, and was counting still. Had such a thing been possible, he would not yet have finished the task of counting a billion.

To count a billion would require a person to count 200 a minute for a period of 9512 years, 542 days, 5 hours and 20 minutes. But, suppose we allow the counter 12 hours daily for rest, eating and sleeping. Then he would need 18,925 years, 319 days, 10 hours and 45 minutes to complete the task.

MENS MASS MEETING HELD.

A mass meeting of the men of the Baptist congregation was held Friday evening last at the home of C. E. Happersett, for the purpose of talking over together the work of the church, particularly in respect to the local field. The topic upon which the discussion centered was "The Influence and Place of Man in the Community." The meeting was an interesting one and of valuable influence.

VICTORIA, THE ROSE OF THE PACIFIC, KNOWS NO WINTER

In the Garden, Empress Hotel. One of Many Fine Roads, Vancouver Island

What a winter resort in latitude 48 north! Impossible, but a fact, as Victoria, the capital of British Columbia, demonstrates. It may be a surprise to many to learn that the famous rose gardens of Victoria are in bloom twelve months in the year and that this very English city on the Pacific coast knows no winter. An ever growing number of winter visitors attests the popularity of this weather program.

Victoria is situated on the southern tip of Vancouver Island overlooking the Strait of Juan de Fuca, which connects the Pacific with the Gulf of Georgia, beyond which lies the mainland of the province. It is a beautiful city with a climate much like that of the south of England. It is also the best city in the province and prior to 1858 was a Hudson's Bay Trading Post. Since 1862 it has been an incorporated city and had grown steadily until now its population numbers about 70,000. Many people who have made fortunes in various parts of the west and northwest have chosen Victoria as the place wherein to enjoy those fortunes, the result is a city of beautiful homes and much wealth. Besides the magnificent Government buildings which rank among the finest in America, there are many fine public and private structures. The ivy covered walls of the palatial Empress Hotel add a peculiar note of beauty to the town, while the hotel provides for the comfort of the most exacting of tourists.

Outdoor sports may be enjoyed here all the year around and out the least of these is golf. The fine 18 hole links maintained by the Victoria Golf Club and the Colwood Golf and Country Club are much appreciated by visiting golfers. Victoria has a large Chinese quarter and a busy water-front that visitors always find interesting. Steamboats run to various points about the island as well as to Vancouver and Puget Sound points. Coastwise steamers connect with Pacific coast ports of the United States, Mexico and South America, others run to Alaska. The trans-Pacific lines that ply between Vancouver and the Orient, South Sea Islands and Australia, stop at Victoria and many travelers make it a point to embark there. More than three thousand sea-going vessels go out of this harbor annually.

MODART CORSETS

Why Look Older Than You Are?

It is astonishing how many women through lack of attention are wearing corsets that give a more mature appearance to the figure than it should have and consequently they appear to be five or ten years older than they are. It is possible to readily improve that condition if you will come to our corset department and get a trial fitting of the MODART front laced corset. See for yourself the youthful and graceful lines this famous corset will give you. No expense to you—do not buy unless there is a decided improvement—then you should.
